SUSTAINABLE
DEVELOPMENT GOALS

INTRODUCTION

DMIHER (DU) Annual SDG Report 2022–23

The Sustainable Development Goals (SDGs) were established by the United Nations in 2015 as a universal call to action to end poverty, protect the planet, and ensure peace and prosperity for all by 2030. These 17 goals, with 169 specific targets, provide a shared blueprint for countries and institutions around the world. India, as a committed member of the global community, began its journey towards the achievement of these goals soon after their inception, focusing on progress that uplifts all sections of society.

Datta Meghe Institute of Higher Education and Research (Deemed to be University) [DMIHER (DU)], recognized among the top 50 Indian universities, has taken proactive steps in aligning its own institutional goals with the global SDGs. With the help of its Prospective Developmental Plan—a five-year roadmap—and its annual Institutional Development Plans, DMIHER (DU) has streamlined its initiatives to support sustainable development across all areas of education, research, and community outreach. This Annual SDG Report showcases the university's initiatives, accomplishments, and ongoing efforts to contribute to each of the 17 SDGs, from SDG 1 (No Poverty) to SDG 17 (Partnerships for the Goals).

DMIHER (DU) has demonstrated a deep commitment to making an impact through its various initiatives. Through its community outreach programs, the university provides health awareness and support services, reaching vulnerable communities and ensuring that no one is left behind. To further support equitable education, the university offers numerous scholarships to deserving students, ensuring financial barriers do not hinder access to quality education. DMIHER (DU) is proud to have a diverse student body, with more than 60% of its students being female, reflecting its commitment to inclusive and quality education for all, particularly the girl child. Gender equality is also evident in the university's workforce, where women hold significant leadership positions, including the Registrar, Controller of Examinations, and various academic roles.

The university is actively engaged in projects related to nutrition, health, and wellbeing, both nationally and internationally, underscoring its dedication to research and innovation in these crucial areas. DMIHER (DU) is committed to clean energy and environmental sustainability, with more than 60% of its energy needs met through renewable sources, such as solar and wind power. A water treatment facility ensures efficient usage and reuse of water, minimizing wastage, while the adoption of over 100 villages allows the university to extend its influence through health care and awareness camps—addressing issues like oral health, tuberculosis, hepatitis, AIDS, cancer, and more.

In pursuit of environmental sustainability, DMIHER (DU) has undertaken major tree plantation drives and organized community awareness campaigns on the importance of clean water, soil, and air. These initiatives are aimed at reducing open defecation and promoting the construction of sanitation facilities, which help improve environmental quality and public health. Additionally, the university supports rural communities in gaining access to affordable and clean drinking water.

The university believes in the importance of lifelong learning and career development. It conducts workshops for faculty, students, and the community, enhancing knowledge and promoting economic growth. With more than 115 granted patents, a robust research and innovation department, and a GMP-certified Ayurveda Lab, DMIHER (DU) contributes significantly to India's economic growth. The university's collaborations with national industries and its state-of-the-art preclinical facility for pharmaceutical trials further demonstrate its commitment to research excellence.

DMIHER (DU) has adopted a sustainable approach to waste management with the establishment of sewage treatment, effluent treatment, and water treatment plants, reducing wastage and promoting sustainable living for all stakeholders—students, faculty, staff, patients, and the community at large. The university ensures that all supplies, including food, are ethically sourced, and it prohibits the use of single-use plastic. Water stations and waste collection bins have been installed across the campus, and a waste management policy is in place to ensure proper disposal and recycling of waste, minimizing the impact on landfills.

To further reduce its carbon footprint, DMIHER (DU) has restricted the use of petrol and diesel vehicles by students, promoting the use of bicycles and electric vehicles instead. Shuttle services are available to encourage the use of eco-friendly transportation. The campus is surrounded by over 200,000 trees, providing a green and healthy environment for all.

The DMIHER (DU) Annual SDG Report reflects the university's holistic efforts in making significant progress toward achieving the SDGs. The initiatives outlined in this report illustrate how the university not only educates but also empowers, innovates, and collaborates to foster a more sustainable and equitable future for all. With each passing year, DMIHER (DU) remains committed to continuing its journey towards achieving the SDGs by 2030, contributing positively to the betterment of society, the environment, and the global community.

DMIHER (DU)

1. Introduction

Sustainable Developmental Goal 1, "No Poverty," aims to end poverty in all its forms everywhere by 2030. Poverty reduction is integral to sustainable development, with direct connections to health, education, and economic stability. Achieving this goal enables individuals to live with dignity and access basic needs, such as healthcare, education, and shelter.

In India, poverty alleviation remains a priority with several governmental and institutional initiatives aimed at supporting economically disadvantaged communities. As an institution, DMIHER (DU) is committed to addressing poverty through targeted programs that offer educational, financial, and community support to those in need. DMIHER (DU) undertakes initiatives, from scholarships to health services, that focus on empowering economically disadvantaged students and communities.

2. DMIHER (DU) Initiatives for Poverty Alleviation

DMIHER (DU) has developed numerous support systems to address the needs of low-income students and underprivileged community members, ensuring that financial barriers do not obstruct access to education, healthcare, and essential services.

1) Scholarships and Financial Aid:

a) Merit-Based and Needs-Based Scholarships: DMIHER (DU) offers various scholarship programs, including the APJ Abdul Kalam Scholarship, Dr. Sarvepalli Radhakrishnan Scholarship, Economically Weaker Sections (EWS) Scholarships, and First-Generation Scholarships. These initiatives provide substantial financial support to students from low-income families, enabling them to pursue higher education without financial strain.

b) Targeted Scholarships for Special Needs: The Women-Only Scholarships, Earn While Learn (EWL) Programs, and Scholarships for Disabled Students further expand inclusivity, addressing specific socio-economic barriers faced by these groups.

c) Support for Orphaned and Vulnerable Students: DMIHER (DU) provides comprehensive financial support, including full fee waivers, hostel and mess scholarships, and essential study materials, clothes to students from orphanages and underprivileged backgrounds.

2) Providing basic health facilities to low income/ tribal people in underserved areas:

Datta Meghe Institute of Higher Education and Research (DMIHER), in partnership with various minority organizations, to enhance healthcare access in rural Maharashtra. Through targeted health camps and cancer screening programs, these collaborations have aimed to address critical health needs among underserved populations.

3) Digital Access and Resource Sharing:

a) Digital Libraries: To enhance academic access, DMIHER (DU) provides a digital library available 365 days a year, including 24/7 access during exam periods. This resource supports students who may not have personal access to digital devices or learning resources, promoting equitable access to information and technology.

b) Book Bank Facility: DMIHER (DU)'s Book Bank initiative allows students from low-income backgrounds to borrow textbooks and study materials for an academic year. This facility alleviates the financial burden of purchasing books, promoting resource-sharing and sustainability.

- **Support Systems for Low-Income Students:**

- **Hostel and Mess Facility:** In alignment with the need to support students from the Socially and Economically weaker sections, DMIHER (DU) offers subsidized hostels, mess services, and emergency support resources, including healthcare services.
- **Financial Assistance Programs:** Through the Earn While Learn initiative, students can financially support themselves during their studies, reducing the risk of poverty-induced dropout.

3. Societal Impact and Assistance

DMIHER (DU) actively participates in poverty reduction efforts by extending services and programs to both students and the surrounding community. The institution's programs are designed to reduce economic hardship and improve quality of life for individuals from vulnerable backgrounds.

- **Scholarship Beneficiaries:** In 2023, 2794 students benefitted from DMIHER (DU)'s scholarships, receiving tuition fee waivers and financial aid covering hostel and mess fees. These programs directly address educational accessibility and foster career advancement opportunities for economically disadvantaged students.
- **Family and Village Adoption Programs:** In collaboration with local communities, DMIHER (DU) provides essential healthcare, sanitation, and educational support to families in need. In 2023, this program reached over 3,000 beneficiaries, significantly contributing to improved health and education outcomes for impoverished households.

- **Village Adoption Program:** DMIHER (DU) assists local communities in securing clean water, healthcare, and sanitation facilities. Through this program, over 10,000 individuals have benefitted from free healthcare services, contributing to overall improvements in community well-being.

○

- **Healthcare Services and Emergency Aid:** The institution provides extensive healthcare services to students and local community members. From routine medical check-ups to emergency aid, these initiatives ensure that health emergencies do not lead to financial distress, helping to stabilize economically fragile families and individuals.

4. Documentary Records and Photos

Basic Health Facilities to low income/ tribal people in underserved areas:

A series of health camps conducted in collaboration with NGOs such as Christian Health Authority of India, Jeevan Vikas Society, and Aga Khan Foundation, spanning regions like Wardha, Gadchiroli, and Yavatmal. A total of 2,910 individuals benefited from these camps, with 283 referred for further treatment. Cancer screenings, particularly for breast and cervical cancers, were also a key focus, reaching additional populations.

Startup Policy at DMIHER: The Startup and Innovation Policy at DMIHER (DU) focuses on fostering a culture of innovation and entrepreneurship among students and faculty. The policy outlines measures to support the creation and growth of startups, emphasizing collaboration, creativity, and practical application of knowledge.

1. **Incubation and Mentorship:** DMIHER provides access to incubation centers and innovation labs, enabling students and faculty to turn their ideas into viable projects. Expert mentorship from faculty and industry professionals is available to guide participants through their entrepreneurial journey.
2. **Workshops and Training:** The university conducts workshops on entrepreneurship, startup culture, and innovation management to equip students with the skills needed to excel in the competitive startup ecosystem.
3. **Industry-Academia Collaboration:** Initiatives are in place to bridge the gap between academia and industry. Through internships, industry-driven projects, and partnerships, students gain real-world insights and opportunities to collaborate with professionals.
4. **Support for Startups:** The policy includes mechanisms for funding, intellectual property rights (IPR) guidance, and business development to ensure startups have the necessary resources and legal frameworks to succeed.
5. **Focus on Sustainability:** Sustainable and socially responsible business practices are encouraged, aligning entrepreneurial efforts with global goals and community impact.

DMIHER (DU)

1. Introduction

Sustainable Developmental Goal 2, "Zero Hunger," aims to eliminate hunger, achieve food security, and promote sustainable agriculture. Globally, hunger and malnutrition remain critical issues, affecting millions and hindering sustainable development. In India, addressing food security and agricultural sustainability is essential for the overall health and growth of communities.

DMIHER (DU) is actively engaged in contributing to SDG 2 through comprehensive policies, community outreach, and institutional practices that support food security, waste management, sustainable food sourcing, and nutrition programs.

2. DMIHER (DU) Initiatives

I) Student and Staff Mess and canteen Facility

The DMIHER (DU) mess provides nutritious and affordable meals for students, staff, and hospital patients, ensuring all community members have access to essential nutrition. For students facing financial hardship, subsidized meal plans or mess-related scholarships are available to support access to balanced meals.

Essential Nutrition Kit Distribution under community Health Program at DMIHER DU

II) Healthy and Sustainable Food Choices

The mess facilities provide both vegetarian and non-vegetarian options to accommodate cultural and dietary preferences, including international students. DMIHER (DU) mandates that all food is ethically sourced, ensuring that it aligns with

environmental best practices, does not exploit labour, and responsibly sources poultry, fish, and other food items to uphold animal welfare and sustainable agriculture standards.

III) Campus Food Waste Tracking and Management

To minimize waste, DMIHER (DU) has implemented a food waste tracking and management policy across campus facilities, including mess halls, cafeterias, and event spaces. Food waste tracking is displayed daily at the student mess, and students themselves manage this activity to foster a sense of responsibility toward the community and sustainability. The waste is collected by third-party providers who process it for recycling, convert it to compost where possible, and responsibly manage non-recyclable waste in designated landfills.

Manure being made out of organic waste/ food waste

IV) Community Outreach

- i) DMIHER (DU) conducts nutrition programs in its adopted villages, targeting vulnerable groups like children, the elderly, and pregnant women. These programs provide essential nutrition and aim to reduce malnutrition in the community.
- ii) The university organizes workshops for local farmers on sustainable agriculture techniques, soil health, and pest management. These efforts empower farmers with sustainable practices, increase yield, and ensure food security at the community level.

SDG 2 Zero Hunger

Outreach activity and awareness camp, Waigaon

V) Sustainable Food Purchases and Support for Local Agriculture

DMIHER (DU) prioritizes sourcing food from local farms, supporting sustainable agricultural practices and reducing the environmental impact of long-distance food transportation. This initiative encourages economic growth in nearby communities and promotes sustainable agriculture.

3. Societal Impact and Assistance

In 2023, the university's initiatives in community nutrition, awareness, and sustainable agriculture created a significant impact across the local community and adopted villages. Through community nutrition programs, access to nutritious meals was provided, effectively addressing hunger and improving overall well-being. Awareness and nutrition workshops emphasized the importance of balanced diets, empowering individuals with knowledge to combat malnutrition and make healthier food choices. Sustainable agriculture workshops and collaborations with local farmers promoted eco-friendly farming practices, enhancing food security and ensuring the long-term sustainability of agricultural resources. These collective efforts have contributed to fostering healthier communities, improving livelihoods, and creating a lasting positive impact on both individual lives and the local environment.

DMIHER (DU) actively supports its student and staff community through affordable mess facilities, subsidized meal plans, and hunger alleviation programs, ensuring no one on campus faces food insecurity.

4. Documentation and Photos

DMIHER contribution towards Nutrient and promotion profile model by WHO:

WHO Regional Office for South-East Asia developed the nutrient and promotion profile model to provide an objective method of benchmarking foods in terms of their nutrient composition and promotions. The model provides nutrient composition thresholds across food product categories and promotional requirements that would support countries to end the inappropriate promotion of foods for older infants and young children.

2023

Nutritional Herbal Plants Garden: The Nutritional Herbal Plants Garden at DMIHER serves as a resourceful initiative aimed at promoting public health and environmental awareness. This garden is designed to provide tangible benefits to the general public in several ways: The garden emphasizes sustainable practices by growing and maintaining plants without harmful chemicals. It promotes biodiversity and environmental conservation while educating the public about sustainable living. This initiative reflects DMIHER's commitment to improving community health, promoting traditional knowledge, and advancing sustainability.

The screenshot displays the website of Mahatma Gandhi Ayurved College Hospital and Research Centre (MGACH & RC). The header includes the college's name and logos for DMIHER, NCISM, and AYUSH. The main navigation bar lists various services and departments. The central section is titled "HERBAL GARDEN" and features a photograph of the garden. To the right of the image, there is a paragraph describing the garden's purpose and a list of two items: "1) List of Medicinal Plants in Herbal Garden" and "2) Visitors to herbal garden".

DMIHER (DU)

1. Introduction

Sustainable Development Goal 3, “Good Health and Well-being,” seeks to ensure healthy lives and promote well-being for people of all ages. This is a crucial goal, as good health is foundational to sustainable development and poverty eradication. Addressing health and well-being not only supports economic and social progress but also builds resilience within communities.

At DMIHER (DU), promoting health and well-being within our university community and the broader local region is a core priority. Our health initiatives focus on accessible healthcare, community-based health education, and the cultivation of future healthcare professionals.

2. DMIHER (DU) Initiatives

I) Research Activities

- a)** DMIHER (DU) actively contributes to health research, producing publications that address crucial health challenges and are viewed extensively by peers and health institutions. Research areas include public health, disease prevention, healthcare access, and clinical innovations.
- b)** Our research outputs have been referenced in clinical guidance documents, demonstrating their relevance to practical health applications and influence on healthcare practices.
- c)** Key research topics include infectious disease prevention, mental health, non-communicable diseases, and health systems improvement. Our studies have contributed to understanding health issues both locally and nationally.

II) Health Professionals

- a)** DMIHER (DU) offers a range of degrees in health-related fields, including Medicine, Nursing, Physiotherapy, Allied Health Sciences, and Public Health. These programs are designed to produce graduates who can meet the healthcare needs of diverse communities.
- b)** In 2023, a significant proportion of our graduates were from health professions, preparing them to contribute to healthcare systems in both urban and rural areas.

c) Students undergo rigorous academic and clinical training, including simulation-based learning and hands-on community health projects, ensuring they are equipped to address contemporary healthcare challenges.

Teaching and Learning activity being conducted at the School of Experiential Learning & Simulation centre. On 7th June 2023

III) Healthcare Services

a) DMIHER (DU) has established partnerships with national and international health organizations to improve health outcomes and enhance healthcare delivery. These collaborations include projects focused on disease prevention, patient safety, and health systems strengthening.

b) We conduct numerous outreach programs to promote health in the local community, targeting issues such as nutrition, family planning, sports, hygiene, and aging well. These programs include regular health camps, awareness campaigns, and vaccination drives, especially in rural and underserved areas.

CPR Activity Awareness Drive conducted at Sai Ashram Nagpur (17-09-2023) and Wardha Bus Stop (28-09-2023)

IV) Mental and Emotional Health Support

a) Mental health is a priority at DMIHER (DU), with support services available for students and staff. Counselling services, workshops, and awareness campaigns are regularly organized to promote mental well-being, reduce stigma, and support those in need.

b) DMIHER (DU) has a strict smoke-free policy, ensuring that all indoor and outdoor spaces are free from tobacco use. This policy aims to promote a healthy environment and aligns with national regulations on tobacco control.

3. Societal Impact and Assistance

a) During the period, the university's colleges and hospital conducted 281 healthcare camps across the region, providing medical check-ups and consultations for vulnerable populations, addressing their health needs, and enhancing overall community well-being.

b) Preventive health campaigns were organized, focusing on communicable diseases, cancer awareness, lifestyle-related conditions, and maternal and child health services. These programs improved health outcomes, promoted early childhood development, and encouraged preventive healthcare practices.

c) Specialized camps focused on critical areas such as nutrition, oral and dental hygiene, women's health, AIDS awareness, cancer prevention, and anti-tobacco education. These initiatives raised awareness and promoted healthier lifestyle choices among the community.

d) Collectively, these efforts significantly enhanced health literacy, provided essential support to underserved communities, and strengthened the regional healthcare system while fostering a healthier and more informed society.

e) With over 1000 students, staff, and community members benefiting from mental health services, DMIHER (DU) is building a culture of mental well-being that extends beyond the campus.

4.4 Outreach programmes and projects in the local community to improve and promote health & wellbeing:

Throughout the academic year 2022–23, the institution undertook a range of extension and outreach activities aimed at promoting community welfare, health education, and environmental sustainability. Collaborating with industry, government bodies, and non-government organizations (NGOs), these programs received active support from the National Service Scheme (NSS), National Cadet Corps (NCC), Red Cross, Youth Red Cross (YRC), and various institutional clubs. These initiatives collectively engaged thousands of students and faculty members, making a substantial impact on the community.

1. Community Health Camps:

Sr. No.	Name of the activity	Organising unit/ agency/ collaborating agency	Number of students participated	Number of teachers participated
1.	COMMUNITY BASED SPECIALITY CAMP (OPHTHAL)	SAMTA FOUNDATION, MUMBAI & DMIHER (DU)	15	8
2.	COMMUNITY BASED HEALTH SCREENING MULTI-DIAGNOSTIC AND TREATMENT CAMP	KHETANI FOUNDATION, PANDHARKAWDA & DMIHER (DU)	30	12

3.	COMMUNITY BASED HEALTH SCREENING MULTI- DIAGNOSTIC AND TREATMENT CAMP	OM SWASTA EVAM SIKSHA PARISHAD, BAITUL & DMIHER (DU)	32	15
4.	COMMUNITY BASED SPECIALITY CAMP (OPHTHAL)	GRAM PANCHAYAT MANGRUL DATAGIR, AMRAVATI & DMIHER (DU)	14	8
5.	COMMUNITY BASED HEALTH CHECK CAMP	PHC AND GRAM PANCHAYAT, NIMGAON SABANE & DMIHER (DU)	15	8

World
Tuberculosis
Day

World TB Day is observed on March 24 every year around the world. This annual event tries to educate people about the impact of TB and how to eliminate this devastating disease. According to WHO, the theme for World TB Day 2023 is **"Yes, We can end TB!"** which aims to inspire hope and encourage high-level leadership, increased investments, faster uptake of new WHO recommendations, adoption of innovations, accelerated action, and multisectoral collaboration to combat the TB epidemic. UHTC Intern doctors delivered a Health Talk on symptoms of TB, Types, Prevention, and Treatment, and Nikshay Mitra to 9th Standard students. Nukkad Natak was played by 16 Nursing students. 2 Nursing Teachers and 2 school teachers participated in this activity.

<p>Visit to Vrudhhashram Old-Age Home</p>	<p>8th November 2023</p> <p>Social club, DMMC</p> <p>The visit to Sanjeevan Vrudhhashram Old-Age Home was organized with the aim of fostering a sense of community and compassion among the students and faculty members of our institution. The visit provided students and faculty members with a deeper understanding of the challenges and joys faced by the elderly. It sensitized the participants to the importance of social inclusion and respect for the elderly in our society.</p> <p>The interaction facilitated a sense of community service and social responsibility among the students.</p>	 <p>Visit to Vrudhhashram Old-Age Home</p>

	<p>The moments of interaction and bhajan singing created an atmosphere of happiness and contentment among the residents and participants alike. It emphasized the therapeutic effects of communal activities and shared experiences.</p>	
<p>Engaging Sai Ashram children; Cleanliness drive, Planting tress</p>	<p>Social club, DMMC 10th November 2023 On 10th November 2023, the visit by Sai Ashram Children to SVL DMMC was orchestrated to foster a spirit of mutual learning, cultural exchange, and community service. Following the pooja, the children were engaged in sessions highlighting the importance of oral hygiene and the significance of a balanced diet. Faculties and students shared informative sessions tailored to the children's understanding, focusing on health and well-being. Subsequently, the faculties and students reciprocated the visit by going to Sai Ashram. Activities included cooking food together, participating in the cleanliness drive of the ashram premises, and planting trees. This hands-on engagement aimed to instil values of service, environmental consciousness, and community involvement among the participants. A shared meal was organized, allowing the students and Ashram kids to dine together. Additionally, a birthday celebration for Hon'ble Chancellor Dattaji Meghe was observed, marked by cutting a cake in his honour, symbolizing unity, and</p>	 <p>Sai Ashram Children: Cleanliness Drive</p>

	shared celebrations. The joint activities at the Ashram encouraged a sense of responsibility toward community service, environmental conservation, and meaningful engagement with the Sai Ashram children.	
World Diabetes Day: Awareness Drive	<p>25th November 2023</p> <p>DMMC participated along with other Health Science College institutions of Wanadongri campus on 25th November 2023, for World Diabetes Day. A successful walkathon event was organized to raise awareness about diabetes and promote a healthy lifestyle. The event aimed to encourage physical activity, educate participants about diabetes prevention, and foster community engagement. Students had made posters to create awareness among the people on World Diabetes Day</p>	 <p>World Diabetes Day: Walkathon</p>

4.11 DMIHER Hospital Facilities and Infrastructure Overview:

Largest per patient area in Central India

Our world-leading hospital in Central India proudly boasts the largest per patient area, setting a new standard for healthcare excellence in the region.

- NABH Accredited Hospitals
- 2 Laboratories - NABL™ accredited
- Central Clinical Laboratory of AVBRH and SMHRC
- 1 Laboratory - ISO certified
- Central Clinical Laboratory of AVBRH is certified with ISO 9001:2015 for the Quality Management System

* National Accreditation Board for Hospitals, ** National Accreditation Board for Laboratories

Vision:

Transforming Lives through Well-Being

Mission:

The well-being would be ensured, by the delivery of "Comprehensive Health Care" which would be:

- Available, Accessible, Affordable, Safe and Effective.
- Professional and ethical Services rendered through competent, confident & compassionate Professionals.
- Through state-of-the-art facilities.
- Integrating from Promotional & preventive health.
- Of Consequences towards training the learners in health education.
- Providing a platform for innovative Research and Development in Health Care.
- Collaborative with Local, Regional, National and global community.

- Multi Vessels Angioplasty brings new life to 88-Year-old Women
- 1st Centre of Central India to conduct successful MICS
- 3000+ Open-Heart Surgeries & 1800+ successful Balloon Mitral Valvuloplasty (BMV)

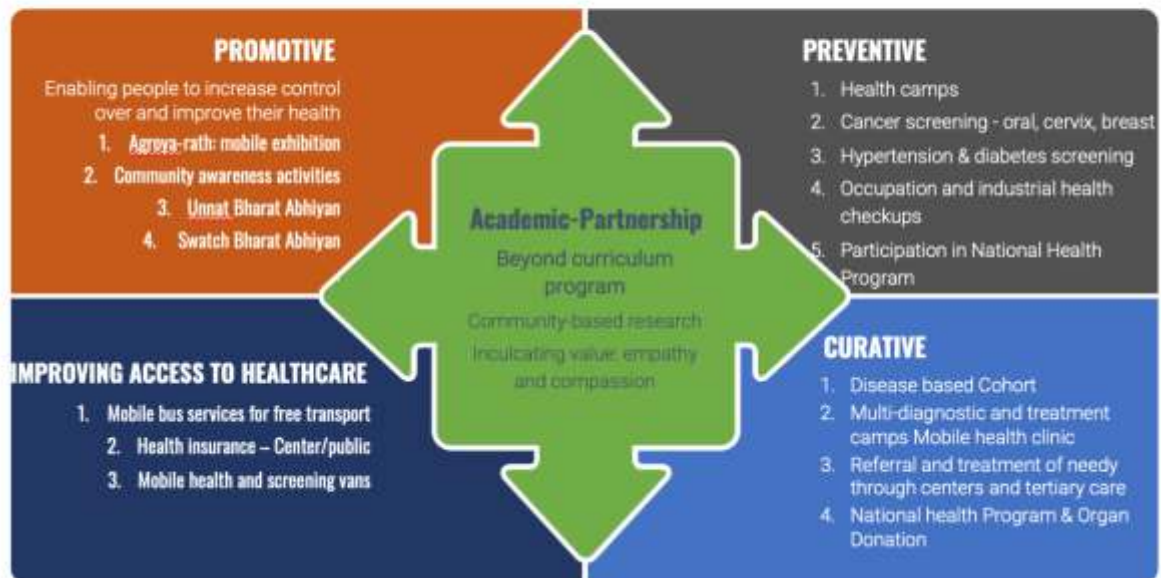

4.12 AROGYA-SETU: Its goal is to Bridging service gaps, addressing inequities, enhancing health-seeking behavior, delivering community-based healthcare & health insurance.

AGROYA-SETU: Key Initiatives

An Ecosystem for Creating Big-impact

APPROACH & ACTIVITIES

Last year, AROGYA SETU screened over 100,000 patients through community health camps, treated more than 70,000 at DMIHER's hospital, and provided ₹4,80,24,235 in subsidies, reducing patient **OUT-OF-POCKET** expenses.

4.13 Health Interventions in Tribal Communities: A community based multi diagnostic health check-up camp was conducted in tribal area. All the broad specialities participated in this camp. Patients requiring further investigations and treatment were referred to DMIHER's tertiary care hospital. Health education regarding prevention and

early diagnosis of various ailments common among tribal population and awareness regarding existing government health schemes applicable to tribal population was imparted to the beneficiaries. In total 22 health check-up camps were conducted at various location in the tribal area.

Health check-up camp for tribal community, Dahegaon, Yavatmal

Health check-up camp for tribal community, Chanai kh, Chandrapur

4.14 Rural and Tribal Health Mission: It is a joint venture of Acharya Vinoba bhave Rural Hospital, Sawanghi (Meghe) and Maa Arogya Seva Samiti Yavatmal. The area identified

were difficult to reach rural and tribal pocket of Vidarbha region in which health care facilities are sparse and health problems of the people are not addressed because of many reasons like extreme poverty, ignorance, lack of specialist health care facilities. The camps were conducted through help and coordination of local officers of Maa Arogya seva samiti.

Health Specialist consulting & Examining patients, and a dental procedure is being carried out

ESG being conducted at camp site and an ENT examination being done

4.15 Activities for the Underprivileged /Orphan Children's: Datta Meghe Institute of Higher Education and Research University has undertaken various initiatives to support underprivileged and orphaned children throughout the year 2023. The activities have been thoughtfully designed to enrich the lives of these young individuals, offering them educational exposure, joy, and guidance. The university's initiatives included a guided museum visit to provide educational enrichment, Diwali gift distribution to bring festive cheer, and personalized guidance sessions to nurture their growth and development.

DMIHER (DU)

SDG 4: Quality Education

1. Introduction

Sustainable Development Goal 4, "Quality Education," aims to provide inclusive and equitable quality education and promote lifelong learning opportunities for all by 2030. It emphasizes equal access to affordable, quality education, from early childhood development through vocational and higher education.

Access to quality education for marginalized communities remains a major challenge. DMIHER (DU) is committed to this mission, promoting quality education through a variety of inclusive initiatives, scholarships, and lifelong learning opportunities. By fostering an environment of educational inclusivity, DMIHER (DU) actively contributes to SDG 4 through diverse scholarship programs, innovative teaching methods, and accessible learning opportunities that promote academic growth and equity.

2. DMIHER (DU) Initiatives

- a)** DMIHER (DU) provides scholarships tailored to economically disadvantaged students, women, first-generation learners, and other marginalized groups. This includes Earn While Learn (EWL) programs and Book Bank facilities to support students financially and academically.
- b)** To enhance education quality, DMIHER (DU) incorporates digital learning platforms, simulation-based learning, and blended learning. The School of Experiential Learning & Simulation Centre provides hands-on, real-world challenges and skill-building, contributing to a learning experience that is both practical and culturally diverse.
- c)** With over 9200 students from varied backgrounds, including international students, the university embodies the principle of education beyond borders, creating a culturally enriched academic environment.
- d)** DMIHER (DU) offers certification courses and vocational training aimed at improving students' employability and preparing them for the workforce.
- e)** Through partnerships with online learning platforms, DMIHER (DU) offers continued education to students, faculty, and alumni. These lifelong learning programs encourage continuous skill enhancement and reflect the university's dedication to lifelong learning access for all.
- f)** Collaborating with global universities and institutions, DMIHER (DU) provides students with international exchange opportunities, facilitating exposure to diverse educational standards and experiences.

3. Societal Impact and Assistance

- a) 2794 students benefited from various scholarships in the past year, reducing financial barriers and facilitating access to quality education.
- b) More than 500 students participated in skill development and vocational training, improving their employability and aligning with objective of lifelong learning and vocational skill enhancement.
- c) During the year, the university conducted 78 continuing education programs, offering students, faculty, and alumni diverse opportunities for skill-building and academic growth. These programs spanned various disciplines, including technical skills, leadership, research, and digital literacy, equipping participants with knowledge to thrive in a dynamic global environment. By fostering lifelong learning, the initiatives enhanced personal and professional development while reinforcing the university's role as a center for innovation and education.
- d) International collaborations enabled students to participate in exchange programs, enhancing cultural understanding and global learning exposure.

4. Documentation & Photos

School of Virtual Learning utilized for training of general public: Datta Meghe Institute of Higher Education & Research (DMIHER), University, has actively contributed to public health awareness through its School of Experiential Learning & Simulation Centre.

Educational outreach activities beyond campus: Datta Meghe Institute of Higher Education and Research (DMIHER) actively undertakes a range of educational outreach activities beyond its campus, extending its commitment to community welfare and public health. DMIHER provides community health services, including targeted health interventions in tribal areas and rural regions, through its Rural and Tribal Health Mission. Organ donation awareness campaigns and CPR demonstration and training sessions are organized for the local community, equipping individuals with life-saving skills. Initiatives like the Oral Health Mela focus on educating school children on oral hygiene, while collaborative activities with the Girl Up organization empower young girls in the community.

1. Community Health Camps:

Sr. No.	Name of the activity	Organising unit/ agency/ collaborating agency	Number of students participated	Number of teachers participated
1.	COMMUNITY BASED SPECIALITY CAMP (OPHTHAL)	SAMTA FOUNDATION, MUMBAI & DMIHER (DU)	15	8
2.	COMMUNITY BASED HEALTH SCREENING MULTI-DIAGNOSTIC AND TREATMENT CAMP	KHETANI FOUNDATION, PANDHARKAWDA & DMIHER (DU)	30	12
3.	COMMUNITY BASED HEALTH SCREENING MULTI-DIAGNOSTIC AND TREATMENT CAMP	OM SWASTA EVAM SIKSHA PARISHAD, BAITUL & DMIHER (DU)	32	15
4.	COMMUNITY BASED SPECIALITY CAMP (OPHTHAL)	GRAM PANCHAYAT MANGRUL DATAGIR, AMRAVATI & DMIHER (DU)	14	8
5.	COMMUNITY BASED HEALTH CHECK CAMP	PHC AND GRAM PANCHAYAT, NIMGAON SABANE & DMIHER (DU)	15	8
6.	COMMUNITY BASED HEALTH SCREENING MULTI-DIAGNOSTIC AND TREATMENT CAMP	ZILLA PARISHAD, HIVARI & DMIHER (DU)	30	16
7.	COMMUNITY BASED HEALTH SCREENING MULTI-DIAGNOSTIC AND TREATMENT CAMP	GRAM PANCHAYAT, JAMANI & DMIHER (DU)	28	15
8.	COMMUNITY BASED SPECIALITY CAMP (OPHTHAL)	PHC, SALAI KALA & DMIHER (DU)	28	18

SDG 4 Quality education

9.	COMMUNITY BASED HEALTH SCREENING MULTI-DIAGNOSTIC AND TREATMENT CAMP	ROLE FOUNDATION VYAHAD KHURD & DMIHER (DU)	33	17
10.	COMMUNITY BASED HEALTH SCREENING MULTI-DIAGNOSTIC AND TREATMENT CAMP	ZILLA PARISHAD,KUCHNA & DMIHER (DU)	34	18

World Tuberculosis Day

World TB Day is observed on March 24 every year around the world. This annual event tries to educate people about the impact of TB and how to eliminate this devastating disease. According to WHO, the theme for World TB Day 2023 is **"Yes, We can end TB!"** which aims to inspire hope and encourage high-level leadership, increased investments, faster uptake of new WHO recommendations, adoption of innovations, accelerated action, and multisectoral collaboration to combat the TB epidemic. UHTC Intern doctors delivered a Health Talk on symptoms of TB, Types, Prevention, and Treatment, and Nikshay Mitra to 9th Standard students. Nukkad Natak was played by 16 Nursing students. 2 Nursing Teachers and 2 school teachers participated in this activity.

PrideMonth Celebration

Events :-

- **Totebag painting**
- **Pride parade**
- **Poster making**
- **Face painting**

26th and 27th June 2023

GirlUpWardhaclub, AVBRH

Totebag painting

Held on 26th June 2023 at the Food Court.

Girl Up Wardha team arranged tote bags and paints for interested members who filled up the google form in order to participate for this event. Everyone was very enthusiastic as it was a unique and fun way of being supportive about the community we were celebrating. We had some amazing artwork done on the tote bags which we have featured on our social media accounts as well. The event was a great success ! 40 tote bags were painted in total and everyone had the best time.

Pride parade:

Held on 27th June

Event included face painting and poster making near the Cancer Hospital at AVBRH

We began at the Cancer Hospital AVBRH and concluded our parade near the Health Club.

Being a part of the parade was an amazing experience as everyone came together to celebrate the

Pride Parade

Face Painting

	<p>community and make them feel acknowledged and supported</p> <p>Face Painting: Venue- Near Cancer Hospital AVBRH To show acceptance towards the community, the students felt pride in painting each other's faces in pride colours promoting acceptance and diversity.</p>

	<p>pride among citizens. The campaign encourages individuals to pledge their commitment towards enhancing the natural and cultural heritage of our nation.</p>	
Swachh Bharat Abhiyan	<p>NSS Club, DMIHER (1st to 15th Oct 23)</p>	 <p>Swachh Bharat Abhiyan</p>
Visit to Vrudhhashram Old-Age Home	<p>8th November 2023</p> <p>Social club, DMMC</p> <p>The visit to Sanjeevan Vrudhhashram Old-Age Home was organized with the aim of fostering a sense of community and compassion among the students and faculty members of our institution. The visit provided students and faculty members with a deeper understanding of the challenges and joys faced by the elderly. It sensitized the participants to the importance of social inclusion and respect for the elderly in our society. The interaction facilitated a sense of community service and social responsibility among the students. The moments of interaction and bhajan singing created an atmosphere of happiness and contentment among the residents and participants alike. It emphasized the therapeutic effects of communal activities and shared experiences.</p>	 <p>Visit to Vrudhhashram Old-Age Home</p>

Engaging Sai Ashram children; Cleanliness drive, Planting tress

Social club, DMMC
10th November 2023
On 10th November 2023, the visit by Sai Ashram Children to SVL. DMMC was orchestrated to foster a spirit of mutual learning, cultural exchange, and community service. Following the pooja, the children were engaged in sessions highlighting the importance of oral hygiene and the significance of a balanced diet. Faculties and students shared informative sessions tailored to the children's understanding, focusing on health and well-being. Subsequently, the faculties and students reciprocated the visit by going to Sai Ashram. Activities included cooking food together, participating in the cleanliness drive of the ashram premises, and planting trees. This hands-on engagement aimed to instil values of service, environmental consciousness, and community involvement among the participants. A shared meal was organized, allowing the students and Ashram kids to dine together. Additionally, a birthday celebration for Hon'ble Chancellor Dattaji Meghe was observed, marked by cutting a cake in his honour, symbolizing unity, and shared celebrations. The joint activities at the Ashram encouraged a sense of responsibility toward community service, environmental conservation, and meaningful

World Diabetes Day: Awareness Drive	<p>25th November 2023</p> <p>DMMC participated along with other Health Science College institutions of Wanadongri campur on 25th November 2023, for World Diabetes Day. A successful walkathon event was organized to raise awareness about diabetes and promote a healthy lifestyle. The event aimed to encourage physical activity, educate participants about diabetes prevention, and foster community engagement. Students had made posters to create awareness among the people on World Diabetes Day</p>	 <p>World Diabetes Day: Walkathon</p>

AROGYA-SETU: Its goal is to Bridging service gaps, addressing inequities, enhancing health-seeking behavior, delivering community-based healthcare & health insurance.

AGROYA-SETU: Key Initiatives

An Ecosystem for Creating Big-impact

APPROACH & ACTIVITIES

Last year, AROGYA SETU screened over 100,000 patients through community health camps, treated more than 70,000 at DMIHER's hospital, and provided ₹4,80,24,235 in subsidies, reducing patient **OUT-OF-POCKET** expenses.

Health Interventions in Tribal Communities: A community based multi diagnostic health check-up camp was conducted in tribal area. All the broad specialities participated in this camp. Patients requiring further investigations and treatment were referred to DMIHER's tertiary care hospital. Health education regarding prevention and early diagnosis of various ailments common among tribal population and awareness regarding existing government health schemes applicable to tribal population was imparted to the beneficiaries. In total 22 health check-up camps were conducted at various location in the tribal area.

Health check-up camp for tribal community, Dahegaon, Yavatmal

Health check-up camp for tribal community, Chanai kh, Chandrapur

Rural and Tribal Health Mission: It is a joint venture of Acharya Vinoba bhave Rural Hospital, Sawanghi (Meghe) and Maa Arogya Seva Samiti Yavatmal. The area identified were difficult to reach rural and tribal pocket of Vidarbha region in which health care facilities are sparse and health problems of the people are not addressed because of many reasons like extreme poverty, ignorance, lack of specialist health care facilities. The

SDG 4 Quality education

camps were conducted through help and coordination of local officers of Maa Arogya seva samiti.

Health Specialist consulting & Examining patients, and a dental procedure is being carried out

ESG being conducted at camp site and an ENT examination being done

Activities for the Underprivileged /Orphan Children's: Datta Meghe Institute of Higher Education and Research University has undertaken various initiatives to support underprivileged and orphaned children throughout the year 2023. The activities have been thoughtfully designed to enrich the lives of these young individuals, offering them educational exposure, joy, and guidance. The university's initiatives included a guided museum visit to provide educational enrichment, Diwali gift distribution to bring festive cheer, and personalized guidance sessions to nurture their growth and development.

DMIHER (DU)

1. Introduction

Sustainable Development Goal 5, "Gender Equality," seeks to end discrimination and violence against women and girls, guarantee equal rights, and provide opportunities in education, employment, and beyond. Achieving gender equality is essential for building a peaceful, sustainable, and prosperous world. Despite global progress, gender-based disparities still impact many communities. DMIHER (DU) is committed to advancing gender equality, with policies and initiatives that support women's education, professional development, and leadership progression. The university strives to create an inclusive environment for women by offering equitable access to educational and career opportunities, promoting a supportive culture, and fostering pathways for women's advancement into leadership.

2. DMIHER (DU) Initiatives

- a) DMIHER (DU) actively maintains gender balance within its academic and administrative teams. Women constitute a substantial portion of the student body, with targeted admissions efforts supporting first-generation female students, thereby addressing educational access gaps for disadvantaged groups.
- b) The university provides a range of scholarships specifically designed for female students, alongside access schemes and mentoring programs, to encourage equitable participation and support academic success.

Institutional Forum for Women (IFFW) workshop on Gender Equality

- c) DMIHER (DU) upholds a strong Non-Discrimination Policy that protects against gender-based discrimination. This policy covers all female students and staff and extends inclusivity to transgender individuals, fostering a respectful and diverse campus culture.
- d) The university's Maternity and Paternity Policies enable new parents to maintain their educational and career commitments, ensuring a balanced support structure for both female and male caregivers.
- e) DMIHER (DU) fosters a culture that supports women's advancement based on merit, ensuring they have equal opportunities for leadership roles. This commitment is evident in the university's inclusive approach to appointing qualified women across various senior academic and administrative roles, reinforcing its dedication to balanced and equitable leadership.
- f) The university actively tracks women's application rates and supports their entry into underrepresented fields, encouraging gender diversity across all programs.
- g) Female students benefit from mentoring schemes led by experienced faculty and professionals, offering comprehensive support for their academic and personal development. These programs engage all female students, ensuring widespread impact and growth.

3. Societal Impact and Assistance

- a) In 2023, DMIHER (DU) awarded scholarships to over 2,794 students, with over 59% being female, enabling them to pursue their education and career aspirations without financial constraints.
- b) Women hold over 58% of senior leadership roles at DMIHER (DU), demonstrating the institution's dedication to gender inclusivity and equitable representation in academic leadership.
- c) The university's policies on non-discrimination, parental support, and childcare facilities contribute to an inclusive and supportive environment, benefiting women in both academic and administrative roles.

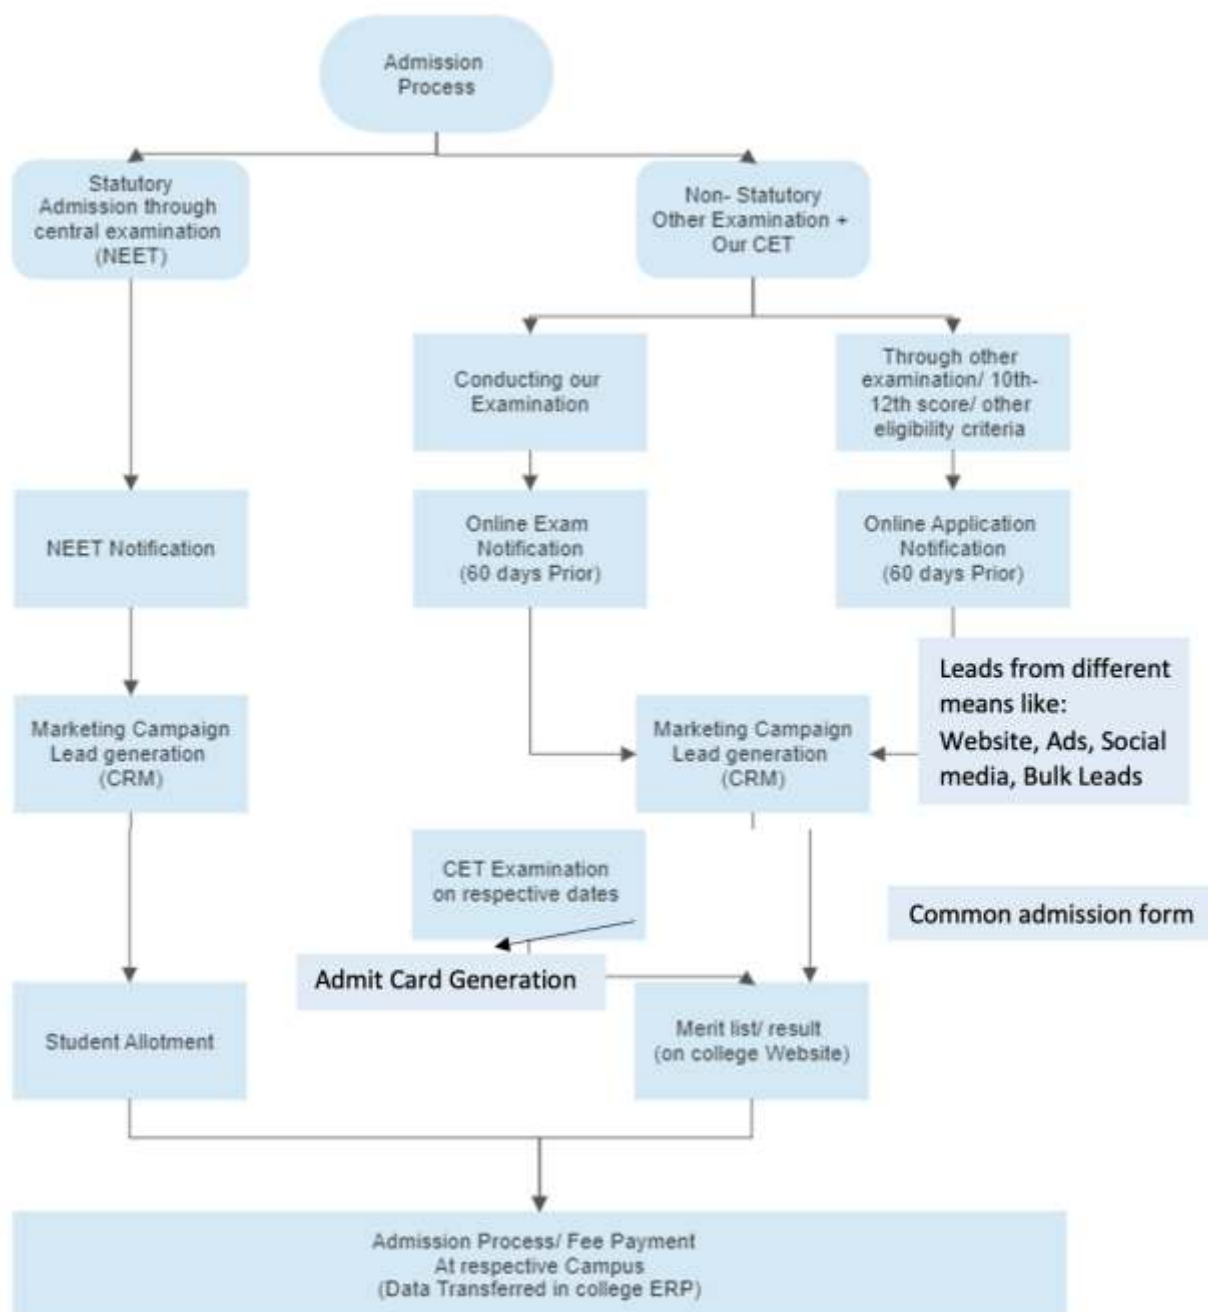

4. Documentation and Photos

Systematically tracking women application, acceptance, entry and completion rate

in the University: The Women Access Policy at DMIHER(DU) is dedicated to providing equal educational. It establishes a framework to boost application, acceptance, and enrollment rates for women across academic and professional domains. To make the admission more accessible, DMIHER(DU) offers support through dedicated networks, mentorship, and guidance, connecting women with current students, faculty, and professionals for meaningful engagement.

SDG 5 Gender Equality

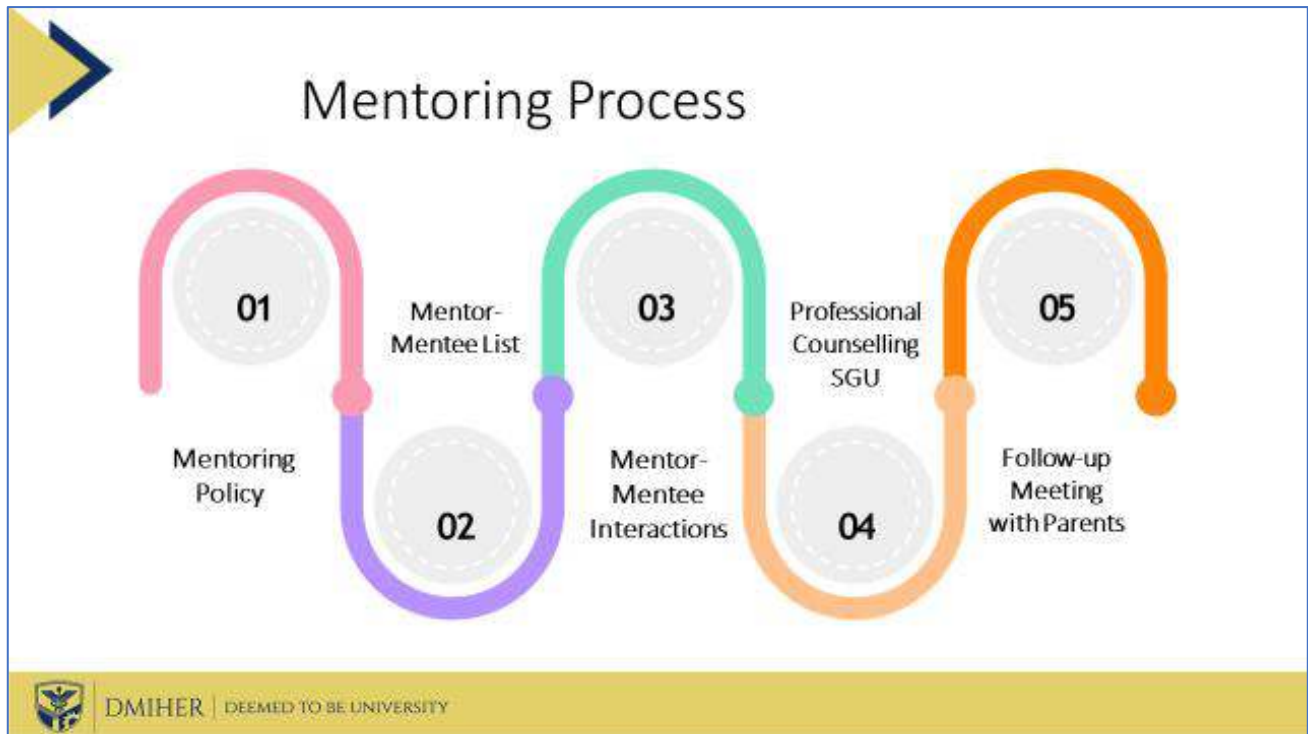

Systematically tracking women application, acceptance, entry and completion rate at

DMIHER University

Women Access Schemes: As it is visible from the high percentage of Women Admission in DMIHER, special provision is made for the attraction of Women, special scholarships are in place among others viz.

MENTORSHIP: Every Student is attached with dedicated Faculty for the purpose of Mentoring in all respects related to right from their Admission to Exit from the Institution

Mentoring Process

PRECEPTORSHIP: The concept of Preceptorship, in Medical and Allied Sciences is related to the support of activities related to Academics which include Tutorship, Guidance and Counselling on their performance. Such initiatives are very popular, especially among women Candidates.

Preceptorship Program

COUNSELLING: Special Counselling Cell is available which is headed by a Professional Counsellor who deals with all aspects of Students Counselling requirements, which is based on a Buddy approach basis and thus, the students personal and professional needs are taken care, with a motive to have their any grievances related to the Campus, Studies.

Women's application in unrepresented areas: DMIHER established School of Allied Science (Science & Technology, Social Sciences, Humanities & Liberal Arts, Commerce and Management) in the year 2019-20 and Faculty of Engineering and Technology in the year 2021-22, DMIHER(DU) actively encourages applications from women in subjects where they are underrepresented. We are committed to promoting diversity and inclusion, and we have specific initiatives, scholarships, and support systems in place to facilitate increased participation of women in traditionally underrepresented fields of study for their progression in carrier.

Gender Equality Activities: Through interactive workshops, discussions, and hands-on activities, DMIHER's gender equality programs aimed to challenge stereotypes, raise awareness about gender-based violence, and promote gender sensitivity in various sectors. By providing a platform for open dialogue and skill-building, these initiatives empowered participants to recognize and address gender inequalities, advocate for women's rights, and contribute to creating safer and more inclusive environments for all. In every constituent institute of the DMIHER University Gender Equality Day celebration and Gender equality workshops were conducted under the Gender equality program. In total 996 individuals benefitted through this program.

1. Debate competition at Jawahar Nehru Medical College, Wardha

On 22nd August 2022, a debate competition was held with the theme "Investing in Women: Accelerate Progress," aimed at exploring the critical role of investing in women's empowerment to drive societal and economic progress.

Debate competition at Jawahar Nehru Medical College, Wardha

2. Slogan Competition at Datta Meghe College of Pharmacy, Wardha

In commemoration of Gender Equality Day, Datta Meghe College of Pharmacy, Wardha, organized a Slogan Competition on 26th August 2022.

Slogan Competition at Datta Meghe College of Pharmacy

3. Painting Competition at Ravi Nair Physiotherapy College, Wardha

On 25th August 2022, Ravi Nair Physiotherapy College celebrated Gender Equality Day by organizing a painting competition to raise awareness about the importance of gender equality.

Painting Competition

4. Debate Competition at School of Allied Health Science, Wardha and Datta Meghe Medical College, Nagpur

On 25th August 2022, a Debate Competition was organized under the IFFW Cell to celebrate Gender Equality Day. The event was held for UG and PG students from the School of Allied Sciences (MBA, MCA, BBA, BCA, BSC AI DS, BSC IT).

Debate Competition

5. Two-minute Video Speech Competition at SRMMCON, SMCON Sawangi (Meghe), Wardha

On 26th August 2022, the Institutional Forum for Women at SRMM College of Nursing organized a two-minute video speech competition in celebration of Gender Equality Day.

Two-minute video speech competition

6. Digital Logo Making Competition at Sharad Pawar Dental College, Wardha

On 26th August 2022, the Institutional Forum for Women, in association with the Art Club of the Student Welfare Committee, organized a digital logo-making competition in celebration of Gender Equality Day.

Digital Logo Making Competition

7. Workshop on Gender Equality at Sardar Patel Dental College, Wardha

On 7th October 2022, the Institutional Forum for Women (IFFW) at SPDC organized a workshop on gender equality for the teaching and non-teaching staff of the institution, held from 2:00 to 3:00 pm. The session included pre-tests and post-tests, benefiting a total of 60 participants.

Workshop on Gender Equality

7. Workshop on Gender Equality at Mahatma Gandhi Ayurveda College, Wardha

MGACH & RC had conducted an awareness workshop on IFFW and Gender equality on 19.10.22. A total of 45 Teaching and Non-teaching staff attended this workshop.

Workshop on Gender Equality

8. Workshop on Gender Equality at Ravi Nair Physiotherapy College, Wardha

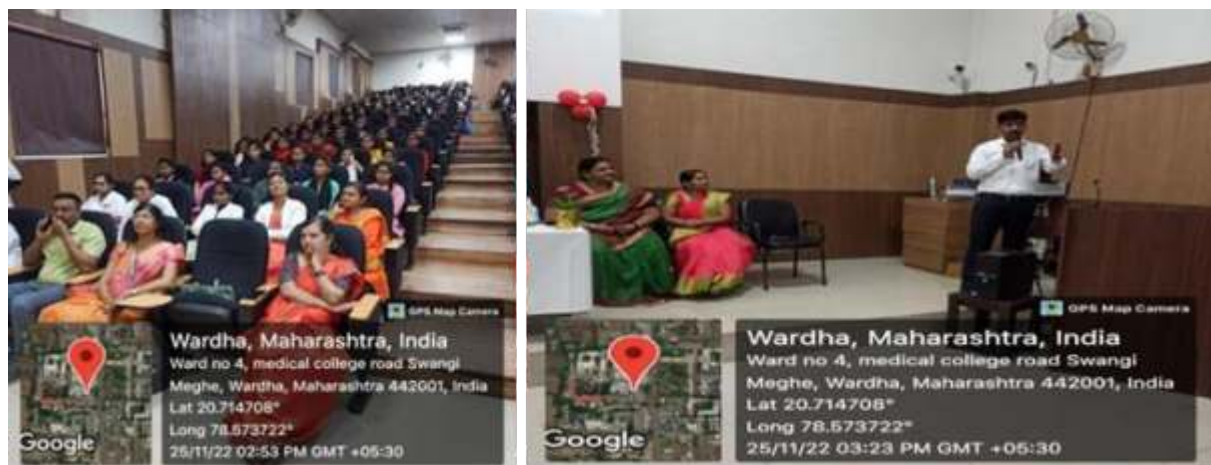

On 14th November 2022, a Gender Equality Workshop was conducted at Ravi Nair Physiotherapy College to sensitize both teaching and non-teaching staff about gender equality and the role of the Women's Forum. A total of 21 staff members attended the workshop, which played an important role in promoting gender sensitivity and legal awareness within the institution.

Workshop on Gender Equality

9. Workshop on Gender Equality in Smt. Radhikabai Meghe Memorial College of Nursing

On 27th December 2022, the Institutional Forum for Women (IFFW) of SRMMCON,

SRMMSON, and SMCON organized a sensitization and awareness program for teaching and non-teaching staff at Smt. Radhikabai Meghe Memorial College of Nursing, Sawangi (M), Wardha.

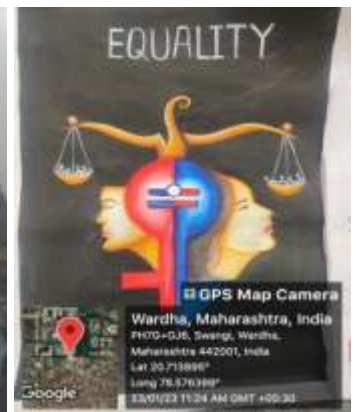

Workshop on Gender Equality

10. Workshop on Gender Equality at the School of Allied Health Science, Wardha

A Gender Equality Workshop was conducted by the School of Allied Sciences on January 23, 2023, for first-semester students and faculty members.

Workshop on Gender Equality

11. Lecture on Gender Equality for Nursing Colleges

On February 7, 2023, a lecture on Gender Equality was organized for students and faculty members from various Nursing colleges.

Lecture on Gender Equality

12. Role Play Activity – “Famous women Personality” by School of Allied sciences,

Under the Gender Equality Programs initiative, the School of Allied Science organized an engaging Role Play Activity titled "Famous Women Personalities" on March 4, 2023.

Role Play Activity

13. Rangoli competition by Smt. Radhikabai Meghe Memorial College of Nursing (SRMMCON), Wardha

As part of the Gender Equality Programs, the Smt. Radhikabai Meghe Memorial College of Nursing (SRMMCON) organized a Rangoli Competition on March 8, 2023, to commemorate International Women's Day.

Rangoli competition

14. Debate competition by Mahatma Gandhi Ayurved College, Hospital & Research Centre, Wardha

Under the Gender Equality Programs initiative, a debate competition was organized by the Mahatma Gandhi Ayurved College, Hospital & Research Centre (MGACH & RC) on March 8, 2023, coinciding with International

Women's Day.

Debate competition

15. Gender Equality Workshop by Ravi Nair Physiotherapy College, Wardha

As part of its ongoing commitment to promoting gender equality, RNPC conducted a Gender Equality Workshop on May 6, 2023.

DMIHER (DU)

SDG 6: Clean Water and Sanitation

1. Introduction

Sustainable Development Goal 6 centers on securing access to safe, affordable water and sanitation for all. It emphasizes effective water management as vital to achieving sustainable development, ensuring health, and protecting environmental resources.

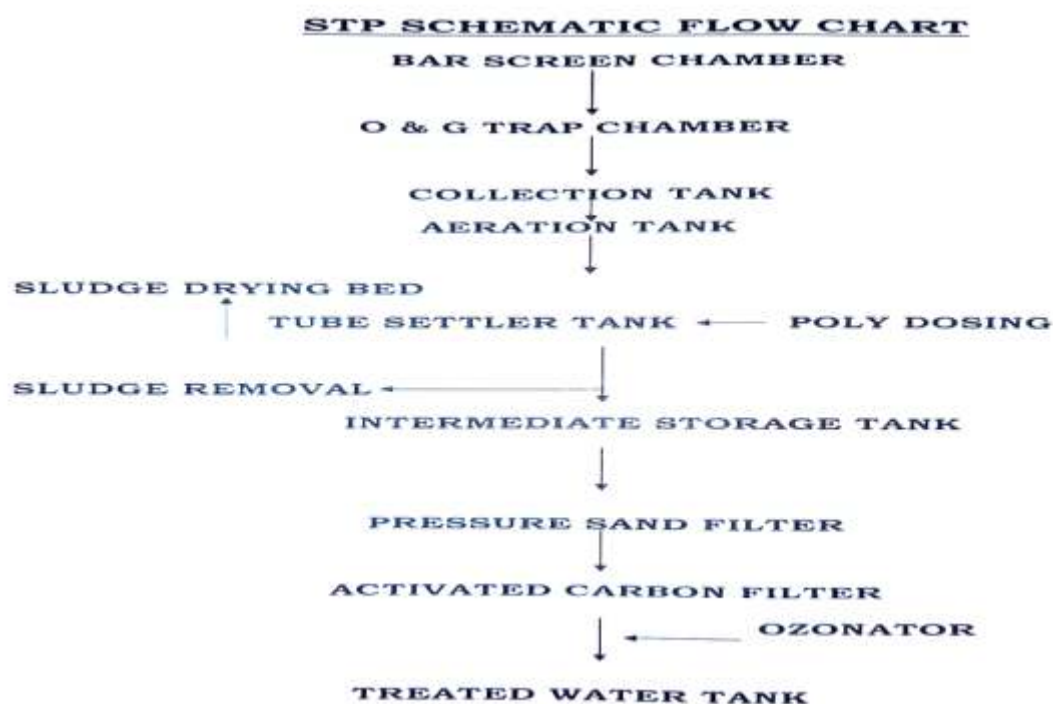

The university is dedicated to conserving water, implementing sustainable water practices, and educating its community on responsible water use. DMIHER (DU) promotes both institutional and individual responsibility towards sustainable water management.

2. DMIHER (DU) Initiatives

a) Water Quality Assurance: DMIHER (DU) conducts regular monthly water testing at its in-house water testing facility. This testing covers all water sources used across campus, including in colleges, hospitals, and residential facilities, ensuring that clean, safe, and affordable drinking water is accessible to all. The university also collaborates with external testing facilities to validate its internal testing accuracy. Any detected deviations from industry standards prompt immediate corrective action to maintain high-quality water standards.

b) Sustainable Water Management Practices: The university has implemented a range of water-conscious practices across its infrastructure. Buildings incorporate efficient plumbing fixtures to minimize water wastage, and landscaping features plants that require minimal watering. These standards reduce overall water usage on campus and contribute to environmental sustainability by conserving local water resources.

Water Treatment process flow

c) Provision of Free Drinking Water: Ensuring access to clean drinking water is a priority at DMIHER (DU). The university provides free, purified drinking water through multiple drinking water stations located across campus. These stations are maintained to benefit students, faculty, staff, and visitors, ensuring hydration and promoting health and wellness on campus.

3. Societal Impact and Assistance

a) Access to Clean Water: The monthly testing and cross-validation with external facilities safeguard the quality of water available to all individuals on campus, enhancing health and well-being.

b) Water Conservation Initiatives: DMIHER (DU)'s integration of efficient plumbing and water-conscious landscaping directly contributes to regional water conservation, serving as a model for sustainable resource management within the community.

c) DMIHER (DU) has been a pioneer in fostering innovative solutions for sustainable development through its flagship program, "ImpactSpark." This initiative engages students, faculty, and local communities to ideate, prototype, and implement sustainable practices.

The "Reel Making" competition under ImpactSpark has been instrumental in addressing critical water conservation challenges. Solutions like rainwater harvesting, greywater recycling, and efficient irrigation systems have been conceptualized, with practical applications ensuring the sustainable management of water resources. Additionally, the

development of Affordable Drinking Water Stations throughout the campus and the promotion of low-flow water fixtures underscore DMIHER (DU)'s commitment to clean water.

Ref. No. DMIMS (DU)/2020-21/48A

Date: 19th April, 2020**POLICY FOR WATER CONSERVATION**

Water is a prime natural resource, a basic human need and a precious national asset. **National Water Policy (2002)** and **National Water Policy (2012)** has been formulated by Department of Water Resources, for the Planning, development and management and Rain harvesting of water resources need to be governed by national perspectives.

The 'Jal Shakti Abhiyan' will focus on five aspects -- water conservation and rainwater harvesting, renovation of traditional and other water bodies, reuse of water and recharging of structures, watershed development, and intensive afforestation, Drinking Water Sanitation.

Water is so essential for life that it's simply impossible to imagine life without water. The uneconomical and unethical use of water by human beings is the sole reason for the exploitation and deterioration of valuable natural resource. Thus, both quality and quantity of water are at stake and have to be taken care of. It's the moral duty and social responsibility of each individual and community as a whole to contribute to conserve water and rejuvenate the water resources.

In this direction, Datta Meghe Institute of Medical Sciences (Deemed to be University) has made efforts to ensure water conservation and water harvesting. The campaign has been channelized with the Motto "**Be Water Smart, Every Drop Counts**" following the 3 R principle - Reduce, Reuse and Recharge.

The primary goal of water conservation policy is to provide safe and clean water in whole campus area. The university is implementing water efficient practices. Faculty, Student and staff engagement play a major role in our water sustainability strategies. Reducing water consumption and protecting water quality shall be the key objectives of sustainable policy of University.

INSTITUTE OF HIGHER
EDUCATION & RESEARCH
(DEEMED TO BE UNIVERSITY)
LEARN. LEAD.

DMIHER (DU)

1. Introduction

Sustainable Developmental Goal 7, "Affordable and Clean Energy," aims to ensure universal access to affordable, reliable, and sustainable energy. It highlights the necessity of reducing emissions, enhancing energy efficiency, and supporting the shift towards renewable energy. Clean energy is foundational not only for mitigating climate change but also for enabling sustainable economic growth.

DMIHER (DU) is committed to implementing sustainable energy practices on campus and empowering the local community with knowledge and support to promote energy efficiency.

2. DMIHER (DU) Initiatives

a) Renewable Energy Resources: The university operates 2319KW of solar and wind energy installations, which supply over 60% of the university's total energy demand. This substantial use of renewable resources underscores DMIHER's commitment to low-carbon energy use and contributes significantly to reducing its carbon footprint.

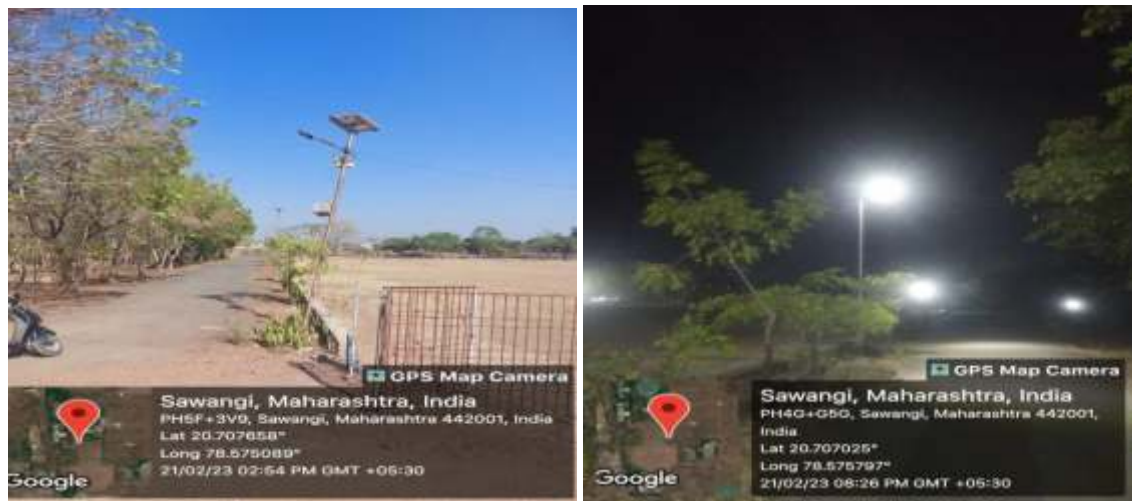

Solar Power Generation at DMIHER DU

b) Sustainable Transportation Policy: DMIHER has taken proactive steps to reduce reliance on fossil fuels by prohibiting petrol and diesel vehicles for students. Instead, students are encouraged to use electric two-wheelers,

bicycles, and the university's shuttle bus service, which connects hostels, colleges, and hospitals. This policy significantly lowers campus emissions, promotes energy conservation, and supports the use of cleaner commuting alternatives.

c) Energy-Efficient Building Standards: DMIHER has implemented policies ensuring all new buildings and renovations meet stringent energy efficiency standards. The university follows these standards rigorously to minimize its carbon footprint and energy consumption across all facilities.

Solar Powered Street Lights at the DMIHER (DU) Campus

d) Energy Reduction Plans: DMIHER (DU) has introduced a comprehensive energy efficiency plan to reduce overall consumption, including regular audits to identify areas of potential wastage and immediate corrective actions to mitigate inefficiencies.

Wheeling to the grid, DMIHER DU, Power Generation from Solar Energy, Capturing and Monitoring Inverters

3. Societal Impact and Assistance

a) Community Outreach and Energy Awareness: The university offers programs and workshops to the local community, educating them on clean energy use, energy efficiency practices, and the benefits of reducing carbon emissions. It collaborates with local industries, offering energy efficiency assessments and clean energy solutions.

b) Supporting Clean Energy Startups: DMIHER (DU) has entered a long-term partnership with Hover Mobility, a startup focused on sustainable transportation, to provide e-scooters and e-bikes on campus. This service is available for students, staff, and even patients, enabling a cleaner, efficient mode of transportation across campus. Through this collaboration, DMIHER not only supports innovation in clean energy solutions but also encourages the adoption of low-carbon commuting options that align with the university's sustainability goals.

c) Public Pledge Towards Renewable Energy: The university advocates for clean energy beyond its campus through public campaigns, engaging with students, staff, and the community in renewable energy pledges and sustainable energy initiatives.

DMIHER (DU)

SDG 8: Decent Work and Economic Growth

1. Introduction

Sustainable Development Goal 8 aims to promote inclusive and sustainable economic growth, full and productive employment, and decent work for all. Achieving these goals is essential to eradicating poverty, ensuring fair wages, and creating safe, stable working conditions.

DMIHER (DU) is dedicated to fostering a fair and supportive work environment for all employees and contributing to regional economic growth through responsible employment practices, comprehensive training, and ethical outsourcing. With a diverse workforce spanning various employment types, including permanent and contractual employees, consultants, and indirect workers, the university stands as a model employer and prepares students thoroughly for successful placements.

2. DMIHER (DU) Initiatives

DMIHER (DU) fosters an environment of growth and development by equipping students and faculties with essential skills and training needed to thrive in their careers and contribute meaningfully to the organisation and society. A variety of activities, programs, and initiatives are implemented to ensure students and faculties are well-prepared for future challenges.

- a) Fair Employment Practices:** DMIHER prioritizes fair compensation for all employees, ensuring that each worker receives a living wage above the local poverty threshold, whether employed directly or indirectly.
- b) Inclusive and Non-Discriminatory Workplace:** DMIHER has established policies to eliminate discrimination across areas such as religion, gender, and age. These policies are routinely reviewed to align with evolving inclusivity standards.
- c) Secure Contracts for Employees:** DMIHER places importance on job stability by offering long-term, secure contracts, which fosters a positive, supportive environment for both academic and non-academic staff.
- d) Student Workforce Preparation:** Many students gain practical work experience through structured work placements incorporated into their academic programs, equipping them with hands-on skills and knowledge directly relevant to their careers.
- e) Workforce Diversity:** The university supports a diverse workforce structure, encompassing various roles and responsibilities that adapt to the needs of

the institution, further solidifying DMIHER's role as an employer and economic contributor in the region.

- f) Skill and Aptitude Building Workshops:** Initiatives like "Get Set Go" are designed to develop students' practical skills and build their confidence. These workshops include interactive sessions such as real-life scenarios and role-playing, which help students manage stress, achieve academic and career milestones, and realize their creative potential.
- g) School of Experiential Learning and Simulation Center:** With a strong emphasis on practical learning, DMIHER (DU) provides state-of-the-art facilities through its School of Experiential Learning and Simulation Center. These advanced centers enable students to engage in hands-on training, bridging the gap between theoretical concepts and real-world application. This immersive approach ensures that learners are well-prepared to tackle professional challenges with confidence and competence.

In addition to benefiting students, the simulation center also serves as a hub for faculty development. Faculty members are encouraged to utilize these facilities to refine their own knowledge and skills through practical, real-life training scenarios. This not only enhances their teaching methodologies but also ensures they remain up-to-date with industry-relevant practices.

DMIHER (DU) actively promotes knowledge-sharing beyond its own campus. Faculty members are empowered to conduct training programs and workshops not only for the university's students but also for learners and educators from external institutions. This initiative fosters a culture of inclusivity and collective growth, creating opportunities for individuals outside the university to enhance their skills and knowledge. By contributing to the personal and professional development of a diverse range of learners, the university plays a significant role in driving economic growth at both individual and societal levels.

3. Societal Impact and Assistance

- a) Scholarship and Work-Study Programs:** Through scholarships and Earn While You Learn initiatives, DMIHER provides financial and employment opportunities to students from economically disadvantaged backgrounds, helping them offset tuition costs.

- b) Economic Contributions to the Region:** DMIHER's employment structure and responsible expenditure significantly impact the local economy, positioning the university as a leading regional employer and economic contributor.
- c) Commitment to Equal Pay and Gender Equity:** DMIHER has a strong stance on pay equity, regularly monitoring compensation practices to ensure fairness and transparency, and maintaining a supportive environment for professional growth across all demographics.

DATTA MEGHE INSTITUTE OF HIGHER EDUCATION AND RESEARCH

(Deemed to be University)

Bylaw No. 22 of 2005

PREAMBLE: -

The Department of Human Resource Development, Government of India, on the recommendation of the University Grants Commission (UGC) has accorded the status of a Deemed to be University to Datta Meghe Institute of Higher Education & Research, Sawangi (Meghe) Wardha hitherto known as Datta Meghe Institute of Medical Sciences (Deemed to be University) for the faculties namely the Faculty of Medical Sciences, Faculty of Dental Sciences, Faculty of Ayurvedic Sciences, Faculty of Nursing Sciences, Faculty of Physiotherapy, Faculty of Interdisciplinary Sciences, Faculty of Allied Health Sciences, Faculty of Pharmaceutical Sciences, Faculty of Science and Technology, Faculty of Liberal arts, Humanities & Social Sciences, Faculty of Commerce & Management Sciences, Faculty of Engineering and Technology.

The Degrees, Diplomas and the certificate courses of Datta Meghe Institute of Higher Education & Research, (Deemed to be University) Sawangi (Meghe) Wardha shall have the same status as of those given by any Statutory University duly recognized by the University Grant Commission. (UGC).

1. This Bye Law shall be called as the 'BYLAW GOVERNING DEFINING THE CONDITIONS OF SERVICE OF THE EMPLOYEES OF THE UNIVERSITY'.

Provided further that nothing contained in Bylaw shall have the effect of altering the provisions of any special law, rules or regulations for the time being in force in India.

2. It shall come into force with effect from the date of the approval by the Board of Management or such date as may be decided to be so by it.

DMIHER (DU)

1. Introduction

SDG 9, "Industry, Innovation, and Infrastructure," focuses on building resilient infrastructure, promoting inclusive and sustainable industrialization, and fostering innovation. Investments in infrastructure, such as transport, energy, and information technology, are vital for sustainable development.

DMIHER (DU) is at the forefront of fostering innovation, building infrastructure, and promoting industry-academic partnerships to support sustainable development. Our university believes that strong industrial collaboration, research-driven infrastructure, and innovation ecosystems are essential for achieving transformative progress in healthcare, education, and societal development. By creating a conducive environment for research, technology transfer, and entrepreneurship, DMIHER (DU) is enabling individuals to become changemakers in their respective fields while contributing to the socio-economic growth of the nation.

2. DMIHER (DU) Initiatives

a) Research and Innovation Lab The university houses a state-of-the-art **Research and Innovation Lab** spanning over 10,000 square feet, dedicated to pioneering research across various fields. This facility is equipped to support cutting-edge research, enabling faculty and students to develop innovative solutions and contribute to technological advancement. The lab's infrastructure plays a central role in the university's commitment to fostering a culture of research and exploration.

b) Innovation and Patents DMIHER (DU) has established itself as a leader in innovation with a portfolio of over 115 granted patents, with many in the commercialization stage. This focus on intellectual property demonstrates the university's dedication to transforming research into practical solutions that benefit society. By bringing new products and technologies to market, DMIHER (DU) contributes to the economy while fostering an environment of research-driven innovation.

c) Industry Partnerships for Skill Development Innovative Collaborations:

DMIHER (DU) has established strategic collaborations with prestigious institutions such as IIT Mumbai, IIT Kharagpur, and IISc Bangalore, resulting in the creation of innovation hubs like the NewGen Innovation and Entrepreneurship Development Centre (IEDC) and the BETiC Innovation Cell. These hubs serve as platforms for interdisciplinary collaboration, uniting doctors, engineers, and designers to innovate and develop advanced medical devices, including 3D-printed biomaterials and customized surgical implants. Supported by a grant from DST, the NewGen IEDC fosters a culture of innovation-driven entrepreneurship, empowering students to transform ideas into impactful solutions.

DMIHER (DU) maintains robust partnerships with various industries, offering students invaluable hands-on exposure through job placements, student exchange programs, skill-

building workshops, and specialized training. These industry collaborations effectively bridge the gap between academia and professional practice, equipping students with practical expertise and contributing to regional economic development.

d) In-House Herbal Manufacturing Facility – Rasashala The university operates Rasashala, an in-house facility dedicated to manufacturing high-quality Indian Ayurvedic herbal medicines. This facility not only supplies herbal products across India but also exports internationally, contributing to the nation's economy while promoting traditional Indian medicinal knowledge globally.

Dattatraya Ayurved Rasashala at DMIHER DU

e) Global Research: DMIHER (DU) is a member of global consortia like the South Asia Infant Feeding Research Network (SAIFRN) and the Global Consortium for Public Health and Research (GCPHR), facilitating interdisciplinary and international research. These collaborations have resulted in joint publications, conferences, faculty exchanges, and grant submissions, promoting global health and innovation.

3. Societal Impact and Assistance

a) Capacity Building for innovators Through initiatives like the BETiC Innovation Cell and NewGen IEDC, DMIHER (DU) empowers young innovators by providing resources and mentorship to translate ideas into market-ready solutions. These initiatives contribute to employment generation and economic development, particularly in rural and underdeveloped regions.

b) Contribution to the Local and Global Economy Through the commercialization of patented technologies, exports from Rasashala, and partnerships with industry, DMIHER (DU) significantly impacts both the local and global economy. The herbal products produced by Rasashala, for example, share the benefits of Ayurveda worldwide, creating a unique economic and cultural footprint.

c) Industry-Aligned Education and Training With industry partnerships, DMIHER (DU) equips students with essential skills for employment, helping to address skill shortages in various sectors. This alignment with industry needs benefits students and enhances the local workforce, supporting sustainable economic development.

d) Skill Enhancement Through Collaborations Joint training programs with institutions like the University of Sydney, Sheffield University, and Bournemouth University equip students

with global perspectives and practical skills, enabling them to excel in research and industry. This ensures their readiness to tackle global challenges effectively.

4. Documentation

Research and Innovation House at DMIHER DU

Clinical Research Laboratory at DMIHER DU

Simulation Skills Lab at DMIHER DU

The University's Research & Development Cell has made a significant impact, having developed a creative, supportive and conducive environment for research amongst the students and faculties of all constituent colleges. Established as the unified advanced research cell having all major facilities under one roof. The budget allocation and seed-grants have been increased for students, doctoral and postdoctoral fellows, and research awards leading to an increase in quality and the number of research projects and publications in peer-reviewed journals. There has been a significant increase in ICMR – Short Term Studentships, ICMR PG thesis support. R&D to promote good publication practices and research, our material is thoroughly checked for plagiarism using industry-standard software such as Turnitin for enforcement of similarity checks. Bio-ethics practices were enhanced through the establishment of the UNESCO ethics unit which has enhanced the research aptitude across faculties. In collaboration with IIT-Mumbai, IIT-Kharagpur, IISc Bangalore & VNIT, Nagpur in the field of bioengineering and medical device innovation. This has led to the establishment of a center like NEWGEN INNOVATION & ENTREPRENEURSHIP DEVELOPMENT CENTER (New Gen IEDC), under the aegis of the National Science & Technology Entrepreneurship Development Board (NSTEDB) DST, the Govt. of India, the BETiC Innovation Cell, the Institutional Innovation Council recognized by the Innovation cell, MHRD to promote innovations in medical technology and health care. The Molecular Biology and Epidemiology Laboratory provides state of the art facilities for molecular research. Incorporation of the global health perspective with social innovation support by the SILICE project & Enprenindia project (Erasmus+, EU) by a consortium of 14 higher education institutions across 5 countries and partnering with academia, industries and NGOs. Consultancy and collaboration have had a significant impact and have led to many interdisciplinary, multidisciplinary, and translational researches. The consortium with national and international bodies for global health like the South Asia Infant Feeding Research Network (SAIFRN), the Global Consortium for Public Health and Research (GCPHR) has been formed which has led to joint publications, joint conferences/workshops, an increase in student and faculty exchange programs, joint grant submissions, and knowledge exchanges. Incentives, training on research methodology, and advanced statistics have led to an increase in high-quality peer-reviewed publications in International reputed databases and 3 electronic databases (Scopus, PubMed, Web of Sciences). The significant achievement of publications per year in the International database is at par with the best institutes and universities in the country, there has also been a noted increase in copyright and patent filing, publications & grants. The special focus on enhancing facilities for grant submission, collaboration has led to enrichment and increase in the number of grant submissions, including joint grant submissions with reputed universities like Harvard University (USA), University of Sydney (Australia), Sheffield University (UK), Bournemouth University (UK), Liverpool John-Moores University (UK), Public Health Foundation of India (PHFI).

DMIHER (DU)

1. Introduction

Sustainable Developmental Goal 10, "Reduced Inequalities," seeks to eliminate economic, social, and systemic disparities, ensuring fair access to opportunities for all.

At DMIHER (DU), we are dedicated to creating an inclusive environment where all individuals—regardless of gender, economic background, physical abilities, or other personal characteristics—have equal opportunities to succeed. Through a comprehensive range of policies, support services, and proactive initiatives, DMIHER (DU) upholds its commitment to reducing inequalities within and beyond our community.

2. DMIHER (DU) Initiatives

a) Non-Discrimination Policies for Women and Transgender Persons: DMIHER (DU) has established robust non-discrimination policies to protect and promote the rights of women and transgender individuals. These policies emphasize equal treatment, respect, and access to opportunities across all areas of university life, from admissions to employment. Our policies reflect the university's dedication to fostering an environment where individuals are valued for their contributions, free from discrimination or bias based on gender identity.

b) Counselling and Mental Health Support for Students and Faculty To support mental well-being, DMIHER (DU) offers dedicated counselling services for both students and faculty. These services provide confidential and supportive environments to address personal, academic, or work-related issues. Our approach includes professionally trained counsellors who offer guidance, helping individuals navigate challenges and contribute positively to the university community.

c) Empowerment and Supportive Forums for Women The university has instituted initiatives such as the IFFW (Initiative for Faculty and Female Welfare), which focuses on women's empowerment, professional growth, and welfare. Through IFFW, DMIHER (DU) organizes activities and workshops that promote leadership skills, confidence building, and community engagement, ensuring that women within our community have the resources and support they need to thrive. Furthermore, DMIHER (DU) promotes equal opportunities for women to reach the highest leadership roles, reflecting our commitment to gender equity across all levels.

d) Internal Complaints Committee (ICC) and Grievance Redressal Mechanisms To address harassment and ensure a safe and respectful environment, DMIHER (DU) has an Internal Complaints Committee (ICC) that manages and resolves complaints related to harassment, bullying, or misconduct. Additionally, we have grievance redressal forums where students, faculty, and staff can seek fair and transparent resolutions to their

concerns. These mechanisms reinforce our zero-tolerance policy toward harassment and underscore our commitment to a supportive institutional culture.

e) Support for First-Generation, Economically Disadvantaged, and Disabled Students

The university actively supports students from economically disadvantaged backgrounds and first-generation students through scholarships, mentoring, and peer support programs. Further, to accommodate students with disabilities, DMIHER (DU) provides accessible facilities, individualized support services, and reasonable accommodation policies to ensure that everyone can fully participate in academic life without barriers.

3. Societal Impact and Assistance

a) Inclusive Employment Practices DMIHER (DU) promotes inclusive employment practices that emphasize diverse hiring, equal opportunities, and fair treatment. Our policies guarantee that marginalized or underrepresented groups, including women, transgender individuals, and persons with disabilities, have access to employment, career advancement, and professional development. This commitment extends to our workforce, which includes individuals across various roles, contributing to a vibrant, inclusive campus culture.

b) Anti-Discrimination and Anti-Harassment Initiatives Alongside the ICC and grievance redressal forums, DMIHER (DU) has implemented anti-discrimination policies that cover race, gender, disability, religion, and socioeconomic status. Our approach ensures that all individuals within our university are protected against harassment and discrimination, promoting a culture of respect, safety, and equality. Additionally, awareness programs and training workshops are regularly conducted to educate the university community on topics related to inclusivity and respect.

4.

Documentation

The poster features logos at the top: a circular emblem with a flower, a circular emblem with a person, and the Datta Meghe Institute of Health Sciences logo. The text is centered and reads: 'GIRL UP MEDEOR & DEPARTMENT OF OBSTETRICS AND GYNECOLOGY, JNMC, AVBRH HOSPITAL & STUDENT WELFARE CLUB IN COLLABORATION WITH DSOGS, WARDHA'. Below this is the title 'PROJECT SHAKTI' in large bold letters, followed by 'HPV AWARENESS AND VACCINATION DRIVE'. To the right is an illustration of a woman and a child with a virus icon labeled 'HPV'. At the bottom left, under 'OUR MENTORS', are 'DR. SAMARTH SHUKLA VICE DEAN, UG-JNMC' and 'DR. NEEMA ACHARYA HEAD OF DEPARTMENT: OBS-GYN'. At the bottom center, it says 'PHASE-1 AWARENESS 01/09/23 AND 02/09/23'. At the bottom right, it says 'JNMC BATCHES INVOLVED : 2019, 2020, 2021, 2022'.

ORGANIZING TEAM - GIRL UP MEDEOR

Girl Up was founded in 2010 by the UN Foundation, it is inspiring a generation of girls to be a force for gender equality and social change.

Girl Up Medeor is a club under the aegis of Girl Up India started in 2021 by the students of Jawaharlal Nehru Medical College, Sawangi.

Our organisation aims to make the voices of the matriarchal side of society echo through our modest town via various social welfare events and activities, such as sanitary napkin distribution, pride parade, visits to healthcare facilities etc. leading to empowerment for a better future.

EQUAL OPPURTUNITY CELL at DMIHER (DU)

OBJECTIVES

To oversee the effective implementation of policies and programmes for disadvantaged groups, to provide guidance and counseling with respect to academic , financial , social and other matters and to enhance the diversity within the campus.

The Committee wholeheartedly undertakes the following objectives-

- ◆ To break the obsolete conceptions of social hindrances prevalent in the society that inhibits social growth.
- ◆ To uphold 'social justice' by developing a sense of social sensitivity, connectedness, and responsibility among students, teacher's members and non-teaching staff and their surroundings.
- ◆ To create opportunities and platform for the students where they could practically analyse and evaluate the role of law and legal system in the fast changing society in bringing forth social justice.
- ◆ To contribute materially to the intellectual discourse and academic efforts in developing an analytical attitude through which social realities can be evaluated and enveloped by ideals of social justice.
- ◆ To provide information and act as a counseling-cum-guidance centre for students belonging to the marginalized sections, especially with regard to academic, financial and other matters

- ♦ To ensure implementation of policies, schemes and programmes for the inclusion of under privileged groups within the framework of policies and guidelines of the GOI/UGC

DMIHER (DU)

1. Introduction

Sustainable Development Goal 11 (SDG 11) emphasizes the need to create inclusive, safe, resilient, and sustainable cities and communities. As urbanization increases globally, the significance of sustainable development in urban and rural spaces becomes more critical. Universities are uniquely positioned to influence the sustainable growth of their surrounding communities, integrating educational initiatives with practical applications.

DMIHER (Deemed to be University) is committed to advancing SDG 11 by fostering sustainable practices, preserving cultural and natural heritage, and enhancing the quality of life on campus and in the surrounding community. Our initiatives are designed to build a sustainable future through environmental stewardship, cultural preservation, and inclusive community engagement.

2. DMIHER Initiatives

a) Heritage and Cultural Preservation

DMIHER (DU) actively contributes to preserving cultural heritage by providing public access to educational and cultural facilities on campus. These include:

- **Museum:** Open to the general public, offering free access to a wide range of medical artifacts and educational exhibits. This initiative promotes community learning and cultural engagement.
- **SVL (School of Virtual Learning):** Provides training and simulations on essential skills such as Cardiopulmonary Resuscitation (CPR) for the general public, promoting health awareness and lifesaving skills.
- **Herbal Garden:** Home to a diverse collection of native Indian medicinal plants and trees, the herbal garden serves as a living repository of traditional knowledge. It is open for free educational tours, contributing to the preservation of indigenous knowledge and biodiversity.

b) Green Spaces and Environmental Efforts

The university campus is a model of sustainable environmental practices, featuring extensive green spaces and eco-friendly infrastructure.

- **Tree Plantation:** Over 200,000 trees have been planted on campus, creating a natural buffer against pollution, supporting biodiversity, and moderating local temperatures.
- **Green Campus Initiatives:**

- **Restricted Automobile Entry:** To reduce carbon emissions, the campus limits the entry of non-essential vehicles.
- **Battery-Powered Vehicles:** The university promotes the use of electric two-wheelers and four-wheelers, contributing to a reduction in air pollution.
- **Pedestrian-Friendly Pathways:** Dedicated walkways encourage walking and cycling, promoting a healthy and active lifestyle.
- **Ban on Plastics and Noise Pollution:** Single-use plastics are banned, and a strict 'no-horn' policy is enforced to maintain a peaceful campus environment.
- **Landscaping with Native Plants:** Focused on water-efficient landscaping, DMIHER (DU) uses native plants that require minimal maintenance, contributing to water conservation and biodiversity.

c) Sustainable and Resource-Efficient Building Practices

To minimize environmental impact, DMIHER (DU) adopts sustainable construction techniques.

- **Ready-to-Assemble Structures:** The use of modular building techniques reduces the dependency on traditional materials like cement and water, resulting in resource-efficient infrastructure.
- **Energy-Efficient Buildings:** The campus includes energy-efficient lighting, ventilation systems, and water recycling units, ensuring sustainable resource use.

d) Public Access and Community Engagement

DMIHER (DU) is dedicated to fostering strong community ties by making educational resources accessible to the public.

- **E-Library and YouTube Channels:** Free access to digital content, e-books, and educational videos through online platforms supports continuous learning and community education.
- **Yoga Training for the Public:** Regular yoga sessions are offered to the general public, promoting physical and mental well-being within the community.

e) Accessible Transportation and Housing

The university emphasizes sustainable and inclusive living on campus:

- **Electric Shuttle Buses:** Environmentally friendly transportation options are provided to reduce the campus's carbon footprint.
- **Affordable Housing:** On-campus hostels and staff quarters are designed to accommodate students and staff, fostering a supportive and inclusive community environment.

3. Societal Impact and Assistance Promotion of Local Arts and Heritage

DMIHER (DU) plays an active role in promoting local arts and culture by hosting public performances, art exhibitions, and cultural events.

- **Annual Cultural Festivals:** These events celebrate regional art forms, music, and theater, providing a platform for local artists to showcase their talent.
- **Community Art Projects:** Collaborative art installations and workshops engage the local community, strengthening cultural bonds.

3. Societal Impact and Assistance

a) Promotion of Local Arts and Heritage: DMIHER actively supports local arts by hosting annual public performances, exhibitions, and cultural events that showcase regional art, music, and theatre. The university's cultural contributions strengthen ties with the community and help maintain a vibrant cultural atmosphere.

b) Sustainable Community Development: DMIHER's contributions extend beyond the campus, aiming to foster an environmentally sustainable and culturally rich community. The university organizes donation drives to collect essential items like warm clothing, books, which are distributed to underserved communities.

Donation Boxes: Provide Essential Warmth and Clothing

c) Environmental Education: Through various initiatives, DMIHER educates students and community members on the importance of environmental stewardship, sustainable living, and the preservation of cultural heritage, empowering them to make positive changes within their own communities.

As part of its commitment to environmental conservation, DMIHER (DU) has introduced a unique tree adoption and plantation program. From the beginning of their educational journey, students are encouraged to plant and adopt trees, either on the university campus or in their native regions. This initiative goes beyond mere planting; students are entrusted with the responsibility of nurturing their trees, ensuring their growth and upkeep until they transform into flourishing contributors to a clean and green environment.

This hands-on experience instills a deep sense of ecological responsibility and personal accountability in students. By actively engaging in the life cycle of a tree, students witness the long-term benefits of their efforts, understanding the critical role trees play in combating climate change, preserving biodiversity, and improving air quality.

Tree Plantation and Adoption drive by Students of DMIHER (DU)

DMIHER (DU)

1. Introduction

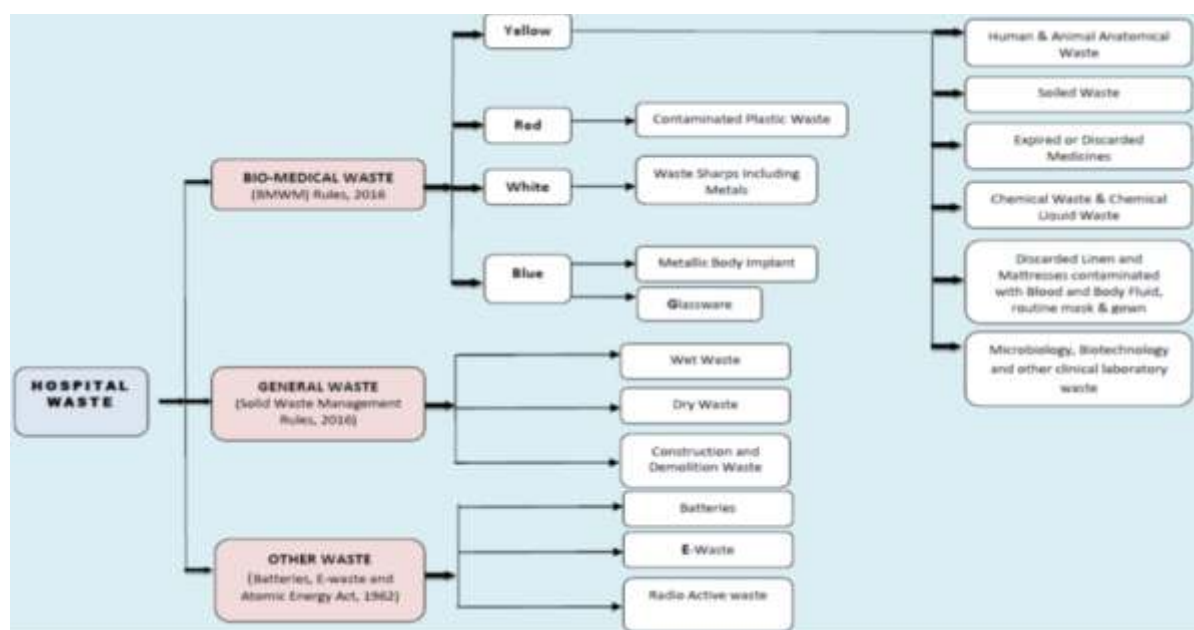

Sustainable Development Goal 12 Responsible Consumption and Production is to ensure sustainable consumption and production patterns, which are critical to achieving a balanced economy and a healthy environment. This involves minimizing waste, using resources efficiently, and promoting sustainable practices throughout production and consumption cycles.

At DMIHER, we are committed to these practices and actively work towards reducing our environmental footprint and ensuring the efficient use of resources in all aspects of university operations.

2. DMIHER Initiatives in Responsible Consumption and Production

a) **Ethical Sourcing and Procurement:** DMIHER (DU) follows a comprehensive **Ethical Sourcing Policy** to ensure that all food, supplies, and equipment are sourced sustainably. This policy guarantees that products meet **fair-trade, sustainable, and environmentally responsible** standards. We work closely with vendors and suppliers to support ethical practices, reduce environmental impact, and minimize our carbon footprint. By prioritizing **locally sourced** goods and services, we reduce transportation-related emissions and support regional economies.

b) **Waste Management and Recycling:** Our institution has implemented rigorous waste management protocols, which include a policy for the disposal of hazardous materials and regular tracking of waste generated across campus. We measure and monitor waste streams, recycle materials where possible, and ensure that any waste sent to landfills is minimized. Composting is also an integral part of our waste management strategy, further reducing landfill contributions and supporting soil health.

Hospital Waste Management Process Categories of Biomedical Waste

CATEGORY	TYPE OF WASTE
YELLOW	Human Anatomical Waste Human tissues, organs, body parts and fetus below the viability period (as per the Medical Termination of Pregnancy Act 1971, amended from time to time).
	Animal Anatomical Waste Experimental animal carcasses, body parts, organs, tissues, including the waste generated from animals used in experiments or testing in veterinary hospitals or colleges or animal houses.
	Soiled Waste Items contaminated with blood, body fluids like dressings, plaster casts, cotton swabs and bags containing residual or discarded blood and blood components.
	Discarded or Expired Medicine Pharmaceutical waste like antibiotics, cytotoxic drugs including all items contaminated with cytotoxic drugs along with glass or plastic ampoules, vials etc.
	Chemical Waste Chemicals used in production of biological and used or discarded disinfectants
	Chemical Liquid Waste Liquid waste generated due to use of chemicals in production of biological and used or discarded disinfectants, Silver X-ray film developing liquid, discarded Formalin, infected secretions, aspirated body fluids, liquid from laboratories, and floor washings, cleaning, housekeeping and disinfecting activities, etc
	Discarded linen, mattresses, beddings contaminated with blood or body fluid, routine mask & gown.

	Microbiology, Biotechnology and other clinical laboratory waste (Pre-treated) Microbiology, Biotechnology and other clinical laboratory waste: Blood bags, Laboratory cultures, stocks or specimens of microorganisms, live or attenuated vaccines, human and animal cell cultures used in research, industrial laboratories, production of biological, residual toxins, dishes and devices used for cultures.
RED	Wastes generated from disposable items such as tubing, bottles, intravenous tubes and sets, catheters, urine bags, syringes without needles, fixed needle syringes with their needles cut, vacutainers and gloves
WHITE	Needles, syringes with fixed needles, needles from needle tip cutter or burner, scalpels, blades, or any other contaminated sharp object that may cause puncture and cuts. This includes both used, discarded and contaminated metal sharps
BLUE	Broken or discarded and contaminated glass including medicine vials and ampoules except those contaminated with cytotoxic wastes.

Storage of Biomedical Waste

Sr. No	Category	Type of Waste	Colour & Type of Container

c) **Reduction of Single-Use Plastics and Disposable Items:** DMIHER (DU) has enacted policies to significantly reduce the use of **single-use plastics** and disposable items across campus. These initiatives extend to outsourced services and the university's supply chain, promoting the use of **biodegradable** or **reusable alternatives**. By transitioning to sustainable alternatives that reduce plastic waste and encourage the use of reusable or biodegradable options, the university helps minimize the environmental impact of plastic waste.

d) **Minimizing Environmental Impact in Outsourcing and Supply Chains:** Our commitment to sustainability extends beyond the university campus, influencing our outsourcing practices and supply chain. DMIHER (DU) ensures that its suppliers meet **environmental standards**, such as the responsible sourcing of materials, the use of energy-efficient equipment, and the minimization of packaging waste. We actively encourage our suppliers to adopt **sustainable practices**, thereby reducing our overall environmental impact.

e) **Sustainable Building Practices:** As part of our ongoing commitment to sustainability, DMIHER (DU) adopts **sustainable building practices** for all new construction projects. This includes the use of **ready-to-assemble structures** that reduce the need for traditional construction materials, which often require significant amounts of water and energy. Additionally, **green buildings** incorporate **energy-efficient designs, water conservation systems**, and **sustainable materials**, contributing to the university's goal of reducing resource consumption and creating a **sustainable campus environment**.

BIO MEDICAL WASTE COLLECTION

SDG 12 Responsible Consumption

Waste Collection from Different Locations

Waste Segregation

Manure being Made out of Organic Waste

3. Societal Impact and Community Engagement

a) **Public Awareness and Engagement in Sustainability:** DMIHER (DU) believes that fostering a culture of sustainability involves educating and engaging both our internal and external stakeholders. We regularly host **workshops, seminars, and awareness campaigns** to educate students, faculty, staff, and the wider community about the importance of **sustainable consumption, recycling, and waste reduction**. These events aim to inspire action and empower individuals to make more environmentally responsible choices.

b) **Collaborations for Broader Environmental Impact:** DMIHER (DU) collaborates with a variety of partners—**local, national, and international**—to advance the principles of responsible consumption and production. Through these partnerships, we engage in **knowledge sharing, resource efficiency projects**, and joint initiatives aimed at promoting **sustainable practices**. By leveraging expertise from a range of stakeholders, we amplify our impact and contribute to broader environmental goals.

c) **Student Involvement in Sustainable Practices:** We encourage students to take an active role in the university's sustainability initiatives. DMIHER (DU) supports **student-led sustainability projects**, clubs, and research initiatives that focus on addressing key environmental challenges. These projects empower students to become environmentally conscious leaders who will contribute to sustainable practices in their communities and beyond.

4. Documentation

DMIHER (DU) has taken significant steps to reduce **food waste** through its **Zero Food Waste Drive**. This initiative was launched to minimize food wastage during cultural and religious events on campus. The program focuses on redistributing **excess food** to communities in need, reducing the environmental impact of food disposal and ensuring that surplus food reaches underprivileged populations.

Through partnerships with **local organizations**, the initiative ensures that **surplus food** is collected, preserved, and delivered to **underprivileged communities**. This initiative not only reduces environmental burdens associated with food waste but also fosters a culture of **mindful consumption** and **resource management**. By **raising awareness** and encouraging responsible food consumption, DMIHER (DU) demonstrates its commitment to **Responsible Consumption and Production**, setting an example for the broader community and reinforcing the importance of sustainability.

SDG 12 Responsible Consumption

General Waste Tracking on Daily Basis

Total Daily Generation :2700Kg (Approx)

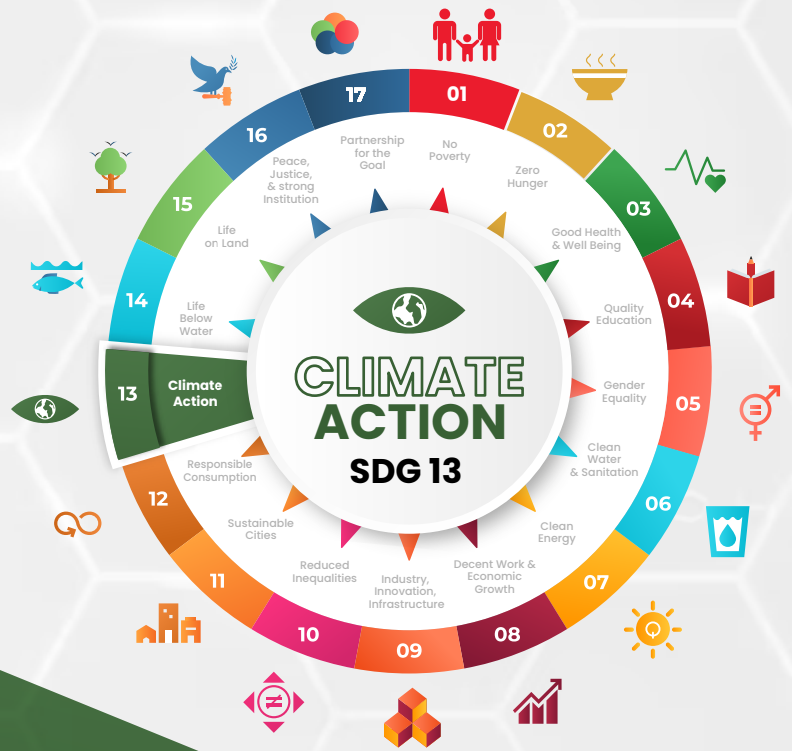

Through ethical sourcing, waste management, reduction of plastics, sustainable building practices, and active community engagement, the university is taking significant steps towards minimizing its environmental footprint and promoting responsible consumption across its operations.

By fostering awareness among students, faculty, and the wider community, we aim to inspire a collective effort to build a more sustainable, resource-efficient world. Through these initiatives, DMIHER (DU) demonstrates its ongoing commitment to environmental stewardship and sustainable development, helping to shape a future where responsible consumption and production are the standard across all sectors of society.

DMIHER (DU)

1. Introduction

Sustainable Development Goal 13 Climate change presents a significant challenge that threatens all aspects of life on Earth, with profound impacts on society, economies, and natural ecosystems.

At DMIHER (DU), we understand the critical need for a collective response to this global crisis. We are committed to reducing our carbon footprint, enhancing climate resilience, and fostering a culture of sustainability within our community. Through comprehensive initiatives in research, infrastructure, and community engagement, DMIHER (DU) is taking significant steps to mitigate the impacts of climate change and promote climate action both on campus and beyond.

2. DMIHER (DU) Initiatives

a) Carbon Neutrality Commitment

DMIHER (DU) has set a clear goal of achieving **carbon neutrality** by reducing greenhouse gas emissions and implementing sustainable practices across campus. Key initiatives include:

- **Promoting Renewable Energy:** We have invested in renewable energy sources such as **solar energy** to power our campus. This not only reduces our reliance on fossil fuels but also contributes to lowering carbon emissions.
- **Energy Efficiency:** Our campus is equipped with **energy-efficient lighting** and **water conservation systems**. Sustainable infrastructure is a key part of our commitment to reducing energy consumption.
- **Sustainable Transport:** The university actively encourages the use of **bicycles**, **electric vehicles**, and **e-bikes** on campus, significantly reducing reliance on petrol and diesel vehicles. These initiatives contribute to cleaner air and lower emissions.

b) Renewable Energy Adoption

DMIHER (DU) has made substantial progress in integrating **renewable energy** into its operations. We have installed **solar panels** across the campus, which now supply over **60% of the university's energy** needs. This shift to solar energy has played a crucial role in reducing the university's carbon footprint and promoting a **sustainable energy future**. The use of clean, renewable energy sources demonstrates our strong commitment to the global transition to a low-carbon economy.

c) Green Building Practices

Sustainable construction is at the heart of our infrastructure development. DMIHER (DU) integrates **green building principles** to minimize environmental impact during the construction and operation of campus facilities. These include:

- **Eco-friendly Buildings:** We prioritize energy-efficient designs and the use of sustainable materials in all new buildings.
- **Brownfield Construction:** We focus on utilizing **brownfield sites** (previously developed land) for construction, minimizing the need to exploit new resources and reducing environmental disruption.
- **Prefabricated and Ready-to-Assemble Materials:** To reduce water and resource consumption during construction, we use prefabricated materials and ready-to-assemble products. This reduces the environmental impacts associated with traditional construction methods.

d) Environmental Policies and Waste Management

DMIHER (DU) implements a series of comprehensive environmental policies aimed at waste reduction, resource efficiency, and sustainable management. Key policies and practices include:

- **Plastic Reduction:** A strict policy is in place to limit the use of plastics across campus. We promote the use of **biodegradable** and **reusable alternatives** to minimize plastic waste.
- **Water Conservation and Recycling:** The university has installed **water treatment plants** for recycling wastewater, helping to ensure sustainable water usage across campus. **Rainwater harvesting systems** are also in place to conserve natural water resources.
- **Sustainable Waste Management:** DMIHER (DU) has a comprehensive waste management system that includes clearly marked waste segregation bins across campus to encourage recycling and responsible disposal.
- **Drinking Water Stations:** To reduce reliance on bottled water, we have set up **refillable drinking water stations** throughout the campus, promoting the use of reusable water bottles.

- **Air quality management:** DMIHER (DU) prioritizes **air quality management** by ensuring that campus activities do not negatively impact air quality. This includes maintaining clean campus grounds, using low-emission vehicles
- **Environmental Audits:** **Environmental Audits** are conducted to assess the university's environmental performance. The audits help identify areas for improvement, measure progress toward sustainability goals, and ensure compliance with environmental regulations.

e) Environmental Awareness

In line with our commitment to fostering a culture of sustainability, DMIHER (DU) regularly conducts programs to promote environmental responsibility. These initiatives include:

- **Workshops and Seminars:** We organize **educational workshops, seminars, and awareness drives** focused on climate change, sustainability, and sustainable living practices.
- **Tree Plantation and Water Conservation Campaigns:** Through annual **tree plantation drives** and **water conservation campaigns**, we actively engage students, staff, and the community in preserving natural resources and mitigating the effects of climate change.
- **Rainwater Harvesting:** The university has installed **rainwater harvesting systems** across campus to collect and reuse rainwater for non-potable uses, reducing the overall demand for freshwater.

3. Societal Impact and Assistance

a) Community Engagement for Climate Action

DMIHER (DU) plays an active role in promoting climate resilience within local communities. Through initiatives like **tree plantation drives, water conservation programs, and climate education workshops**, the university encourages its local community to engage in environmentally responsible practices. These initiatives not only help reduce environmental degradation but also build resilience to climate change at the local level.

b) Promoting Sustainable Practices in Rural Areas

The university extends its sustainability efforts to **rural communities**, collaborating on projects that promote **sustainable agricultural practices** such as **organic farming**, **rainwater harvesting**, and **soil conservation techniques**. These efforts contribute to mitigating the effects of climate change, enhancing soil fertility, and improving the livelihoods of rural populations.

c) Student and Faculty Involvement in Climate Projects

DMIHER (DU) fosters **collaborative research** and innovation in the fight against climate change. Students and faculty members are actively involved in research projects that focus on **sustainable solutions** to combat climate change. These projects often involve collaboration with national and international organizations, providing a platform for meaningful contributions to environmental sustainability.

d) Tree Plantation and Adoption Initiative

As part of our commitment to environmental stewardship, DMIHER (DU) has launched a **Tree Plantation and Adoption Program**. This initiative encourages students and faculty to plant trees either on campus or in their local communities. Participants are responsible for nurturing and maintaining the trees, which contribute to **carbon sequestration**, improve air quality, and create a greener, more sustainable environment.

4. Documentation

DMIHER (DU) has made notable strides in addressing climate change through a combination of internal sustainability initiatives and community engagement. From solar energy adoption to green building practices and waste management policies, our commitment to Climate Action is embedded in every aspect of university life.

By reducing greenhouse gas emissions, adopting renewable energy solutions, promoting sustainable agriculture, and fostering environmental awareness, DMIHER (DU) is not only addressing its own environmental impact but also empowering the broader community to contribute to a more sustainable future.

DMIHER (DU)

1. Introduction

Sustainable Development Goal 14 Life below water is a critical part of the global ecosystem, affecting food security, biodiversity, and climate stability.

While DMIHER is situated in a region with limited direct interaction with large aquatic ecosystems, the university recognizes the importance of contributing to aquatic conservation goals through sustainable practices, education, and awareness initiatives. Our efforts are centered around promoting water conservation, reducing river pollution, and enhancing community awareness on the importance of protecting aquatic life.

2. DMIHER Initiatives

a) River Cleaning Campaigns

DMIHER (DU) has undertaken significant initiatives to clean and restore local rivers, particularly focusing on reducing pollution caused by waste disposal and religious activities. As part of our river cleaning campaigns, we engage students, faculty, and community members in organized clean-up drives. These efforts not only help remove waste and pollutants from the water but also serve to educate the public on the importance of maintaining clean and healthy water bodies.

Key highlights of our river cleaning initiative include:

- **Regular Clean-Up Drives:** We conduct quarterly river clean-up drives, mobilizing volunteers to remove plastic waste, debris, and other pollutants from riverbanks.
- **Awareness Workshops:** Workshops are held to educate the local community on the harmful effects of river pollution and the role each individual can play in maintaining clean waterways.
- **Partnership with Local Authorities:** Collaborations with local municipal bodies and environmental organizations ensure that our efforts align with broader water conservation and pollution control measures.

b) Eco-Friendly Ganesh Visarjan Initiatives

Understanding the cultural significance of festivals while balancing environmental conservation, DMIHER (DU) promotes eco-friendly practices during the Ganesh Visarjan (idol immersion) ceremonies. The immersion of plaster-of-paris (POP) idols and chemical-based paints significantly pollutes rivers and lakes, harming aquatic life. In response, we

have launched a campaign to encourage the use of eco-friendly idols and organized river cleaning activities post-visarjan.

Key initiatives under this program include:

- **Promotion of Eco-Friendly Idols:** Workshops are conducted to teach the community, especially students, to create Ganesh idols using biodegradable materials like clay and natural colors. This reduces the ecological footprint of the festival.
- **Post-Visarjan Clean-Up Drives:** Following the immersion ceremonies, clean-up drives are organized to remove any residual waste and idols from the rivers, ensuring minimal impact on the aquatic environment.

c) Water Treatment and Reuse Facility: DMIHER has established a water treatment facility on campus that enables the reuse of treated water for non-potable tasks, such as irrigation and campus maintenance. This initiative reduces fresh water consumption and demonstrates sustainable water practices that indirectly support nearby water bodies by conserving resources.

d) Watershed and Rainwater Management: With limited natural water bodies nearby, DMIHER focuses on rainwater harvesting and watershed management within the campus. These initiatives help conserve water, reduce dependency on external sources, and support sustainable water management in the region.

3. Societal Impact

DMIHER's commitment to sustainability, while not directly impacting large water bodies, contributes to a broader environmental consciousness. To extend the impact of our initiatives, we partner with local schools and colleges, encouraging young minds to participate in our river cleaning and eco-friendly idol initiatives. These collaborations not only broaden the scope of our efforts but also instill environmental values in the younger generation. Educating students, staff, and the community on water conservation, pollution prevention, and sustainable practices builds a mindset that indirectly benefits aquatic ecosystems.

4. Documentation

DMIHER (DU)

1. Introduction

At DMIHER (DU), we are committed to ensuring responsible consumption and production, reducing carbon footprints, and maintaining a healthy campus environment. As part of our commitment to **SDG 15**, the university has implemented several initiatives that focus on **energy conservation, renewable energy, and environmental sustainability**.

These initiatives are designed to reduce the environmental impact of campus operations while contributing to climate resilience. Our efforts include leveraging alternative sources of energy, promoting efficient energy use, and conducting regular environmental audits to track progress and refine our strategies.

2. DMIHER Initiatives

At DMIHER (DU), we have taken concrete steps to implement sustainable energy solutions and adopt practices that reduce our carbon footprint and promote environmental stewardship.

A) Alternative Energy Sources and Energy Conservation Measures

- **Solar Energy:** The university has integrated solar power across campus buildings, contributing over **60%** of the campus's energy needs. This initiative significantly reduces our reliance on non-renewable energy sources and lowers carbon emissions.
- **Biogas Plants:** To address waste management and reduce dependency on fossil fuels, biogas plants convert organic waste from cafeterias and campus gardens into usable energy for cooking and heating purposes.
- **Energy-Efficient Infrastructure:** DMIHER uses **sensor-based energy conservation systems** to regulate energy consumption. Automated lighting systems are deployed throughout the campus to ensure energy is used efficiently, reducing wastage.
- **LED Bulbs and Energy-Efficient Equipment:** The campus has transitioned to **LED lighting**, and energy-efficient equipment is used throughout the university, significantly lowering electricity consumption.

- **Wheeling to the Grid:** In line with our renewable energy initiatives, we participate in the **wheeling to the grid program**, where surplus solar energy is fed into the local power grid, supporting the broader community's transition to renewable energy.

B) Environmental Auditing and Monitoring

- **Green, Energy, and Environmental Audits:** Regular audits help assess the impact of our sustainability measures. These audits provide key insights into energy consumption patterns, water usage, and waste management effectiveness. This data is crucial for tracking progress and refining our environmental strategies.
- **Waste Management:** DMIHER has a robust waste segregation system, ensuring responsible disposal and recycling across campus. Initiatives such as **composting** organic waste further reduce landfill contributions.

3. Social Impact and Assistance

DMIHER (DU) aims not only to reduce its environmental footprint but also to contribute to local and global sustainability goals through community engagement and assistance.

A) Promoting Sustainability Awareness

- **Educational Outreach:** DMIHER actively educates its students, faculty, and the wider community about sustainable practices through workshops, seminars, and awareness campaigns. Topics include energy conservation, waste reduction, and the importance of renewable energy adoption.
- **Student and Faculty Participation:** Students and faculty members are encouraged to participate in environmental initiatives, such as **tree plantation drives**, **water conservation projects**, and **sustainable agriculture practices**. These initiatives not only help the university meet its sustainability goals but also build a culture of environmental responsibility.

B) Community Engagement and Rural Support

- **Rural Initiatives:** DMIHER partners with rural communities to promote sustainable agricultural practices, including **rainwater harvesting**, **organic farming**, and **soil conservation** techniques. These initiatives help mitigate the effects of climate change while improving the resilience of rural populations.
- **Carbon Sequestration:** The university encourages students and faculty to participate in **tree plantation** and **adopt-a-tree** programs. This grassroots

approach to carbon sequestration helps contribute to cleaner air and biodiversity conservation on and off-campus.

C) Assisting Local Communities

- **Renewable Energy Advocacy:** Through collaborations with local government agencies and organizations, DMIHER supports the wider adoption of **solar energy systems** and other renewable technologies. The university also conducts outreach programs to educate local communities on the benefits of clean energy.

4. Documentation

DMIHER (DU)

1. Introduction

Sustainable Development Goal 16 underscores the importance of peace, justice, and effective institutions for sustainable development. It emphasizes inclusive decision-making, transparency, and accountability as fundamental to promoting equitable growth and societal well-being.

At DMIHER (DU), we aim to uphold these principles through inclusive governance, student and faculty representation, and active community engagement.

2. DMIHER (DU) Initiatives

- a) Inclusive Governance:** DMIHER (DU) operates within an inclusive governance framework that incorporates elected representatives from students, faculty, and staff. This ensures that decision-making processes are participatory, transparent, and accountable, fostering a sense of ownership and responsibility at all levels of the institution.
- b) Student Empowerment and Leadership:** We provide a robust platform for student participation through an independent student body. This empowers students to engage in governance, influence academic and extracurricular activities, and contribute to the overall development of the campus. These initiatives prepare students to become responsible leaders who can contribute to institutional and societal growth.
- c) Commitment to Academic Freedom and Integrity:** DMIHER (DU) values academic freedom, enabling faculty and researchers to explore and share diverse academic ideas. Alongside this, our anti-corruption and anti-bribery policies reaffirm our commitment to maintaining high ethical standards across the institution.

3. Special Initiatives

- a) Academic Council: Ensuring Academic Excellence** the **Academic Council** at DMIHER (DU) is responsible for formulating academic policies, ensuring compliance with national standards, and maintaining the quality of education. The council plays a pivotal role in guiding curriculum development, academic integrity, and faculty development, aligning the institution's academic programs with global best practices and emerging trends.
- b) Seamless Integration of Statutory and Non-Statutory Committees:** A key strength of DMIHER (DU) is the seamless integration of its **Statutory** and **Non-Statutory Committees**, which work together to streamline decision-making and enhance operational efficiency. Statutory bodies, such as the **Academic Council** and **Board**

of Management, are responsible for key decisions on academic policies and governance. Non-statutory bodies, such as the **Joint College Council (JCC)**, provide valuable insights and feedback on student welfare, faculty development, and campus initiatives.

The recommendations from the **JCC**, which includes faculty, students, and administrators, are reviewed and presented to the **Academic Council** for approval. This integration ensures that decisions are well-informed, inclusive, and aligned with the institution's objectives, fostering a culture of collaboration and transparency.

c) **Internal Quality Assurance Cell (IQAC): Driving Continuous Improvement**

The **Internal Quality Assurance Cell (IQAC)** at DMIHER (DU) plays a crucial role in sustaining and enhancing academic and administrative quality. In line with the National Assessment and Accreditation Council (NAAC) guidelines, IQAC leads initiatives aimed at improving overall institutional performance.

IQAC focuses on four main functional areas:

- **Rankings and Accreditations:** Coordinating the university's participation in national and international rankings and accreditation processes, ensuring DMIHER (DU) meets quality standards set by bodies like NAAC and NIRF.
- **Quality Benchmarks and Best Practices:** Establishing and promoting benchmarks for academic and administrative functions, ensuring that best practices are adopted across the university.
- **Audits, Feedback, and Evaluation:** Conducting regular audits and collecting feedback from stakeholders to identify areas for improvement and implement necessary corrective actions.
- **Quality Dissemination and Quality Circles:** Organizing seminars, workshops, and quality circles to foster a culture of excellence within the university and mentor other institutions through customized quality enhancement initiatives.
- Through these efforts, IQAC ensures that DMIHER (DU) continues its commitment to quality assurance, institutional development, and the continuous improvement of all academic and administrative processes

d) **Colloquium Model United Nations Conference**

DMIHER (DU) proudly hosted the **Colloquium Model United Nations (MUN) Conference**, which provided a unique platform for students to engage in simulated diplomatic negotiations and policy discussions, much like the United Nations. This event marks a significant milestone in fostering critical thinking, diplomacy, and collaboration among aspiring young leaders.

This initiative provided students with a comprehensive understanding of international diplomacy, governance systems, and the significance of collaborative decision-making. By recreating real-world scenarios, students honed their skills in negotiation, public speaking, critical thinking, and conflict resolution.

Such events encourage the development of informed and responsible individuals who are prepared to contribute meaningfully to global and societal progress. Through these activities, DMIHER (DU) nurtures future leaders equipped to address pressing challenges and foster positive change at both institutional and community levels.

4. Societal Impact and Assistance

DMIHER (DU) actively contributes to public policy by sharing expert advice and best practices with apex bodies, advocating for their adoption at the national level. These recommendations cover critical areas such as healthcare, education, and sustainable development, which we prioritize within our university. This collaboration strengthens DMIHER's role as a proactive and informed participant in societal progress, supporting impactful policy development for broader implementation.

The university serves as a neutral space for open discussions among diverse political and social groups. This fosters a collaborative environment for addressing pressing social issues, furthering its role as a responsible and inclusive institution.

Colloquium: Model United Nations

SDG 16 Peace, Justice & Strong Institution

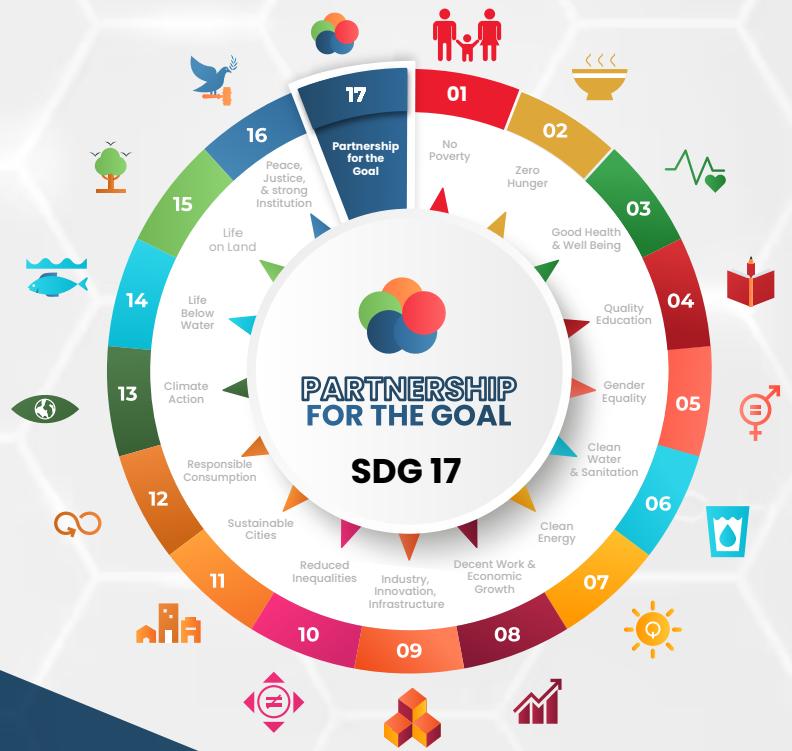

DMIHER (DU) remains steadfast in its commitment to building strong institutions that foster peace, justice, and inclusive governance. Through initiatives such as the **Academic Council**, the **Seamless Integration of Statutory and Non-Statutory Committees**, and the **Internal Quality Assurance Cell (IQAC)**, and the Colloquium MUN, we strive to uphold the values of transparency, accountability, and inclusivity. Our efforts contribute not only to the development of our institution but also to the broader goal of sustainable societal progress, in line with SDG 16.

DMIHER (DU)

1. Introduction

Sustainable Development Goal 17: Partnerships for the Goals underscores the necessity of inclusive and multi-stakeholder collaborations to address global challenges outlined by the SDGs. It promotes partnerships between academic institutions, governments, NGOs, and communities, fostering sustainable development through shared resources, expertise, and strategic initiatives.

At DMIHER (DU), we consider SDG 17 integral to our mission of advancing education, healthcare, and societal welfare. Through collaborative projects, policy advisories, data-sharing initiatives, and events, DMIHER (DU) has fostered partnerships that catalyse positive societal and environmental impacts at local, national, and international levels.

2. DMIHER (DU) Initiatives

a) Global Research Collaborations:

DMIHER (DU) has forged research partnerships with leading academic institutions, NGOs, and healthcare organizations worldwide, including those in low- and middle-income countries. These collaborations focus on knowledge-sharing and capacity-building, producing co-authored research addressing diverse socio-economic challenges such as healthcare accessibility, environmental sustainability, and resource management.

Virtual Case Based Learning Centre at DMIHER DU in Academic Collaboration with Wiell Cornell Medicine College USA

b) Expertise Sharing:

Faculty and experts from DMIHER (DU) actively participate in policy discussions at national and regional levels. By contributing insights and recommendations on healthcare policies, educational reforms, and sustainable practices, the institution supports apical bodies and government agencies in developing frameworks that address pressing global challenges.

These contributions reflect internal best practices that can be implemented broadly to promote equitable growth.

- Dr. Nazli Khatib, DMIHER (DU), an expert in Evidence-Based Medicine from DMIHER, was invited to participate in this esteemed gathering. The meeting aimed to develop a comprehensive understanding of anemia by leveraging systematic reviews (SRs). A total of 28 systematic review questions were proposed and approved during the session, covering diverse dimensions of anemia research and intervention.
- Dr. Mahlaqua Nazli Khatib from DMIHER (DU), a highly respected leader in the field of public health, was invited to participate in the Global Consortium in Public Health meeting organized by the University of Huddersfield. Held on June 19–20, 2023, the meeting convened leading public health experts from around the world to discuss recent developments and address critical challenges in the field.
- Dr. Mahalaqua Nazli Khatib, an esteemed leader in public health and Head of the Centre for Evidence Synthesis at DMIMS and the Global Evidence Synthesis Initiative (GESI), was among the distinguished experts invited to contribute to this pivotal discussion. Recognized for her expertise in evidence-based policymaking and nutritional health, Dr. Khatib played a key role in shaping the dialogue around nutrient profiling and regulatory frameworks. Her participation underscored the critical importance of collaborative efforts in tackling regional and global health challenges.

c) Conferences and Dialogues:

DMIHER (DU) organizes platforms for cross-sectoral discussions involving government representatives, academic leaders, NGOs, and local stakeholders. Through these events, such as conferences and forums, diverse groups exchange ideas and best practices. These dialogues promote actionable insights, enhance awareness, and facilitate strategic collaboration.

KNOWLEDGE PARTNER

DMIHER presents a conclave on Current opportunities in interdisciplinary and
transdisciplinary professional education

d) Engagement Through Alumni Networks:

Alumni-led sessions, mentoring programs, and collaborative projects strengthen the institutional ecosystem while fostering partnerships with diverse industries and sectors. These networks amplify the university's impact by connecting current students with opportunities and knowledge-sharing initiatives across regions and disciplines.

3. Societal Impact and Assistance

a) Community Engagement and Training:

DMIHER (DU) conducts outreach programs that empower local communities with the skills and resources to adopt sustainable practices. Partnerships with local NGOs ensure that healthcare, education, and environmental initiatives are inclusive and impactful, promoting societal welfare.

b) Strengthening Partnerships Through Collaborative and Inclusive Initiatives:

Alumni Engagement Activities serve as a bridge between past and present learners. Alumni actively participate in knowledge-sharing sessions, workshops, and mentoring programs for current students, fostering an exchange of ideas, experiences, and opportunities. These initiatives benefit not only the university but also the wider community by creating platforms for collaborative growth and professional development.

As part of its outreach efforts, DMIHER (DU) has also organized educational visits for school children to its state-of-the-art medical museum. These visits aim to inspire young minds, promote awareness of healthcare advancements, and spark curiosity about the medical sciences. By connecting with younger generations, DMIHER (DU) underscores its commitment to inclusive education and the dissemination of knowledge beyond its immediate academic ambit.

c) Collaboration With NGOs for Social Upliftment:

DMIHER (DU) collaborates with NGOs on community-driven projects such as student volunteering, educational initiatives, and research. These collaborations address issues like health equity, education, and access to resources, empowering marginalized groups while strengthening the societal fabric.

d) Alumni-Led Social Programs:

Alumni initiatives extend beyond the university's immediate ambit, impacting broader communities. From mentoring programs to volunteering activities, alumni contributions help the university engage in multi-sectoral partnerships that directly benefit society.

4. Documentation and Photos

National Academy of Medical Sciences (India), Task Force on Medical Education: Competency publications and interdisciplinary training

Prof. Ved Prakash Mishra, Pro-chancellor, Datta Meghe Institute of Higher Education & Research, and Prof. Adarshlata Singh, Dept. of Dermatology, were appointed as chairperson and member, respectively, of a joint Task Force on Medical Education: Competency publications and interdisciplinary training. They are tasked with preparing a white paper to be submitted to the Government of India, aiming to improve interventions in the area of Medical Education: Competency publications and interdisciplinary training by the National Academy of Medical Sciences (India) (NAMS), New Delhi. NAMS is a nodal agency under the Ministry of Health and Family Welfare (MOHFW), New Delhi, which acts as an advisory body to the Government on matters related to National Health Policy and planning. Intervention for Agrarian Crises in Community:

The Prerna Project is a dedicated intervention designed to address the agrarian crisis and support families affected by farmer suicides. In collaboration with the Zilla Parishad (regional government authorities) and a committed NGO, the project aims to bring relief and sustainable development to these vulnerable households. Recognizing the multifaceted challenges, they face, Prerna Project provides socio-economic support through skill development programs and vocational training, empowering families to generate income and achieve financial stability. Publication with International Collaboration: At DMIHER , in total 9 publications were published related to SDG17 in 2023 annual year focussing on goals aligned to SDG 17.

Alumni Meet: DMIHER (DU) ensures transparency in its sustainability endeavors by publishing regular reports on its SDG-related progress. These documents include detailed accounts of partnerships, resource utilization, and the societal outcomes of various initiatives. By openly sharing insights and methodologies, DMIHER (DU) encourages other institutions to adopt and scale similar models of sustainable development.

This commitment to openness exemplifies the institution's role as a responsible partner in achieving global SDG targets.

National Conclave of Medical Educators and launched the Association of Medical Educators of India (AMEI)

As part of its commitment to SDG 4, Datta Meghe Institute of Higher Education and Research (DMIHER), Wardha, organized the National Conclave of Medical Educators and launched the Association of Medical Educators of India (AMEI) on 28th September 2023 at its off-campus site, Datta Meghe Medical College, Nagpur. This landmark hybrid event served as a platform for educators, researchers, and professionals in medical education to exchange ideas, share experiences, and collaboratively shape the future of medical education in alignment with global educational goals. The event culminated in a declaration of commitment to the purposeful creation and systematic implementation of the conclave's outcomes through the formation of AMEI. This association aims to adhere to the principles of the World Federation for Medical Education (WFME) and the standards of the World Health Organization (WHO), ensuring excellence across all stages of medical education—including basic, postgraduate, and continuous professional development—as well as in distributed and distance learning in medical education. This initiative seeks

to enhance the quality of preventive, promotive, diagnostic, curative, and rehabilitative healthcare. ([Conclave Report](#))

CME on “Quality Education: Accomplishing SDG4 in Health professions Education in India”

On Contribution to **“Azaadi ka Amrit Mahotsav”** DMIHER (DU) hosted the first of planned 75 consecutive events, **CME on “Quality Education : Accomplishing SDG4 in Health professions Education in India”** on August 9, 2022, at DMMC, DMIHER (DU) Nagpur. Welcome address for the event was given by Dr Ved Prakash Mishra and Dr. Russell D’Souza. Continuing Medical Education involves our esteemed faculties Dr Gaurav Mishra, JNMC, Dr Dinesh Badyal, CMC Ludhiana , Dr Kirtana Nayak , MAHE , Manipal, Dr Alka Rawekar, Professor JNMC , Dr S Krishna Mohan , PMCHRI , Chennai, Dr. Sunita Vagha, Dean Academics, Dr. Judy Mckimm, Dr. Shubadha Gade , DMMC, Dr Anagha Sahasrabuddhe , DMMC, Dr. Scott Johnstone, Dr Jayant Vagha, JNMC, delivered a talk on topics related to medical education followed by panel discussion. For panel discussion our guest invitees were Dr Avinash Supe , Dr Poornima Barua , Dr Latha Ravichandran and Dr Sahiba Kukreja as Panellists for ‘sharing best practices in CBME’. And plenary talk was given by Dr. Ronald Harden Total 637 participants attended the event. ([AMEE declaration](#)) ([National Launch AMEE Nodal Centres in India](#))

Professional Development Programme

DMIHER organized a wide array of educational and community-focused events, including workshops, webinars, conferences, and expert lectures. Topics covered include healthcare innovations, AI in education, biomedical advances, clinical and surgical techniques, and interdisciplinary research. Events ranged from practical skill sessions (like postural drainage and temporal bone dissection) to thematic webinars on topics like viral hepatitis, mental health, and antimicrobial resistance. Specialized CME sessions addressed areas such as spine health, hereditary malignancies, and early detection of female reproductive cancers. Additional highlights included sessions on AI and machine learning applications, pragmatic trials, and IoT in healthcare, fostering broad learning and engagement for both professionals and the public.
