

DATTA MEGHE INSTITUTE OF MEDICAL SCIENCES
(Deemed to be University)
SHARAD PAWAR DENTAL COLLEGE & HOSPITAL
MDS

Name of Subject – Prosthodontics: CO-PO MAPPING (PG):

COURSE OUTCOMES	PROGRAM OUTCOMES						
	1	2	3	4	5	6	7
CO-1: Identify the components of stomatognathic system, concept of static and dynamic occlusion, and clinical implication of functional occlusion on biomechanical tissue reactions during Orthodontic tooth movement.	3	1	2	3	3	3	3
CO-2: Critically appraise the growth and development of craniofacial structures including etiology, pathophysiology, diagnosis and treatment planning in various craniofacial disorders like cleft lip and palate and current trends in the management of skeletal dysplasias.	3	0	2	3	3	3	3
CO-3: To diagnose and describe the psychosocial, economical, genetic and environmental factors in the management of Orofacial Deformities.	3	1	3	3	3	3	3
CO-4: To describe the biomechanical principles of different types of Orthodontic biomechanics including friction and frictionless mechanics with emphasis on recent developments of materials and techniques in Orthodontics.	3	1	1	3	3	3	3
CO-5: To describe the factors affecting retention, relapse in Orthodontics including surgical Orthodontics and various recent advances in Diagnosis and materials.	3	1	2	3	3	2	3
