

## **BioNEST DMIHER**

**The BioNEST DMIHER** Centre, hosted by ITE Research Foundation, a Section 8 company having its registered office at C/O Datta Meghe Institute of Higher Education and Research (Deemed to be University), Wardha, is the first bioincubator in central India. It offers a comprehensive range of facilities and services to support startups in biotechnology, Med-tech, and bio-pharma. The centre features advanced laboratories, including NABL-certified facilities, a Central Research Lab, and a clinical setting within a NABH-accredited 2500+ bed hospital. Startups benefit from pre-clinical testing services, an advanced simulation lab, and strong support for clinical trials through the ICMR INTENT network.

The centre also provides expert advisory and mentoring through a network of clinicians, superspecialists, biostatisticians, and innovators, delivering guidance on clinical development, data analysis, and business strategy. Additional services include regulatory and IP consultation, strategic business support, and assistance with grant submissions.

## **Our Mission**

A hub for innovative biotech startups looking to grow and thrive in the field of bioscience.

## **Our Vision**

The center offers state-of-the-art facilities and a supportive community geared towards promoting collaboration and advancement.

## **Key Focus Areas**

Bio-tech, Med-tech, Agri-tech, Bio-Pharma, Bio-Industrial, Bio-Energy, and Bio-Services sectors.
